

**Program Hub Frequently Asked Questions
NCAA Division II 50th Anniversary Scholarship**

- 1. I entered my student-athlete's first/last name and email address under the nominator tab, why haven't my student-athletes received an email from Program Hub?**

*Although the student-athlete's name and email address are required for the first step in the nomination process, Program Hub will **NOT** send the application to their email address. It is the responsibility of the athletics administrator to complete the application in Program Hub on behalf of both student-athletes. We recommend sending the application as a PDF to the student-athletes ahead of time so they can provide you (the administrator) the necessary information to complete their application.*
