KEY ELEMENTS

- The Men's & Women's Rifle Championships consists of two disciplines smallbore and air rifle.
- Each discipline occurs on separate days.
 - Smallbore (Friday)
 - Air Rifle (Saturday)
- Competition takes place on a 26pt range using electronic scoring targets.

RIFLE FACILITY NEEDS

- A minimum spectator seating capacity of 1,000
- The facility must have the capability of accommodating the NCAA portable range or a similar set-up. The NCAA portable range is a 26-point range with a 10-meter and 50-foot firing line.
- Additional space (30-foot minimum) behind the 50-foot line, for competitors and range officers is required.
- Approximate minimum size for the total range is 100 feet wide and 80 feet long.
- Basketball arenas, indoor tracks and field houses have been successful past venues.

RIFLE FACILITY NEEDS CONTINUED

- Ancillary space for team camp, to house 60-70 individuals.
- Balances or scales for weighing rifles in kilograms: air rifles, 5.5 kg. (12.12 lbs.); smallbore, 8 kg. (17.6 lbs.). At least one other scale should be available.
- Certified weights.
- A minimum of four (4) compressed air tanks (scuba size), for student-athletes to fill their air rifles before equipment checks and/or practice. A minimum of two (2) fresh compressed air tanks available for the air rifle match day.
- Projection screens, monitors and/or video boards available at the competition venue to display live match scores and results. Screens large enough for spectator viewing of match targets and scores is required. If possible, scores viewable by the competitors is desirable. Projectors, laptops and other necessary equipment to provide scoring displays must be provided.
- Equipment necessary for the removal of the minimal amounts of lead from smallbore competition.
