

2021 NCAA Division I Women's Basketball
90-Day Post-Positive COVID-19 Test Policy
February 18, 2021

Policy

- For individuals who are at least two weeks post-infection and within 90 days of the first known date of infection, COVID-19 testing and contact tracing will not be required unless COVID-19 is suspected for these individuals.
- Masking and physical distancing will be required of all participants.
- Applies to all Tier 1, 2 and 3 individuals no matter the role (student-athlete, coach, administrator, other).

Tier 1 Pre-arrival Testing

- Pre-arrival testing will not be required for any individual who has a documented positive COVID-19 infection December 9 or later (December 9 is 90 days prior to the first day of prearrival testing on Tuesday, March 9).
 - Positive test results need to be submitted as part of the pre-arrival information package.
 - Documentation is either a PCR test, or antigen test with supporting medical record documenting COVID-19 infection.
- Note on pre-arrival testing:
 - All Tier 1 travel party participants who are not within 90 days of having a confirmed COVID-19 infection will be required to undergo and document seven consecutive daily negative COVID-19 tests prior to arrival into San Antonio. One of the seven tests must be a PCR test.
 - Testing should occur beginning Tuesday, March 9, seven days prior to the first team arrival date of Tuesday, March 16.
 - Additional information on required documentation and process forthcoming.

Reminders

- When outside of the hotel room, all individuals must physically distance and mask at all times other than those actively involved in practice or competition; mask removal is also allowed when eating in pre-approved eating areas.
- Individuals who are within the 90-day window of a COVID-19 infection will only be tested if they are symptomatic and an infectious disease or infection control expert cannot explain the symptoms as a non-COVID-19 related illness.
