

NCAA SRS Report, Week 12 (Final Ratings)

November 20, 2022

I. Description

The NCAA SRS is a rating system designed by Kevin Hutson and John Harris of Furman University, in consultation with the members of the NCAA Division I Football Championship Committee. The rating system provides ratings for all FBS, FCS, and Division II teams. The ratings for the FCS teams are provided to the committee each week.

II. Factors that Influence a Team's Rating

There are three main factors ...

- Strength of Schedule (which considers the ratings of the teams that a team has played)
- Weighted Win/Loss Factor (which is weighted based on home/away and whether an opponent was from a higher/lower division)
- Margin of Victory (which is capped at 21 points)

We would be glad to go into more detail regarding how these factors interact to create ratings.

III. This Week's Ratings

On pages 2-3, we list the current ratings for the top 40 teams and overall ratings for conferences (which is the average rating of teams in those conferences).
