

Dear NCAA Membership:

As we kick off another great season of college golf, we here at Golfstat would like to take a moment to reach out and provide our contact information, so you know our team, and who you can contact throughout the season as questions come up.

From the time my dad started Golfstat, to the time he passed, everybody knew that if you had a question about Golfstat, whatever it may be, you could contact Mark Laesch. You knew you had a direct line.

We've had to adapt in moving forward, but we are here to ensure that you still have that direct communication, and always know who you can call, if you have a question.

Mail@golfstat.com is still the best way to reach us for general Registration, Statistics, Scoring and Rankings support questions. You can also call our office line at 309-828-6430.

However, we want to introduce some of our core team members, and provide our numbers, so you know you can always reach out directly to us, as well.

Ali Szafranski, Director – ali@golfstat.com; 314-856-3399

Marcus El, Director – marcus@golfstat.com; 317-292-3418

Brian Laesch, President – brian@golfstat.com; 310-617-9710

Ali and Marcus will be your best first contact for any Golfstat support questions (Scoring, Live Scoring, Online Statistics, Rankings). Also, please feel free to contact me with any Golfstat questions as well.

Our goal is to make sure we are always providing the absolute best service and support possible for college golf, and you know who to contact, as needed. Thank you for all you do, and we are excited for another season of college golf.

Sincerely,

Brian Laesch
President, **Golfstat**
