In addition, the committee discussed a potential amendment to legislation regarding the first preseason practice date to the third Thursday in August. The committee also discussed a potential amendment to legislation regarding the first competition date to the fourth Thursday in August. The current policy for both first practice and first date of competition is five days before the start of classes or Sept. 1, whichever is earlier.

Both topics will be discussed in-depth prior to the next meeting with potential to propose both for legislation during the committee's next meeting.

The committee also discussed out-of-season foreign tours, but decided more conversation needed to be had before making any recommendations.

- Regional awards.** The committee discussed and voiced support to allow regional champion teams to purchase regional championship trophies from the NCAA's awards provider, which were previously provided by the NCAA. NCAA staff was directed to determine feasibility and next steps for possible implementation.
- Men's and Women's Golf Oversight Committee 2026 annual meeting dates.** The women's championships subcommittee determined it will hold its annual subcommittee meeting on June 11-12. The men's subcommittee has not confirmed its meeting dates at this point. The committee determined it would like oversight committee meetings prior to and immediately following the subcommittee annual meetings in June to discuss and vote on topics.
