ACTION ITEMS.

1. Legislative items.
   - None.

2. Nonlegislative items. The NCAA Women's Gymnastics Committee approved the following rules modification for the 2021-22 season. The Women's Gymnastics Committee requests approval from the NCAA Playing Rules Oversight Panel for the following item:
   - Adjust the time limit when a fall with injury occurs.
     1. **Recommendation.** Modify the language for when an injury occurs as follows: When an injury occurs, the officials, coaches and athletic trainer may add time (up to two minutes) to assess the injury if deemed necessary. If the athlete is deemed able to resume their routine, the remount apparatus time for that apparatus will begin after the injury assessment has concluded.
     2. **Effective date.** Immediately.
     3. **Rationale.** Currently there is a very limited time for a student-athlete to be assessed following an injury before the individual must remount the apparatus. If a student-athlete does not remount the apparatus in the allotted time, they cannot finish their routine and the team score is impacted. This is a concern, given injuries that can occur during the sport and the committee feels more time is necessary to ensure student-athletes are safe when competing and not at risk for further injury.
     4. **Estimated budget impact.** None.
     5. **Student-athlete impact.** None.

Committee Chair: Jessica Chrabaszcz, Yale University.
Staff Liaison(s): Morgan DeSpain, NCAA Championships and Alliances.
Ben Brownlee, NCAA Championships and Alliances, Playing Rules.
