Section 3 • Selection Process and Notification

In order to serve as a site representative, all individuals must participate in the mandatory site representative training for the specific sport. All individuals employed at NCAA member institutions and/or conferences are eligible to serve as site representatives. Individuals who have a perceived conflict of interest in serving as a site representative at a particular institution should notify Aaron King before site selections. (See Conflict of Interest below.)

Site representatives will be notified after selections that they are needed to serve.

Section 3•2 Conflict of Interest

[Reference the August 2008 Executive Committee minutes.]

The NCAA is a voluntary Association comprised of colleges, universities, conferences and other organizations, and governed through a membership-led committee structure. Within the governance structure, committee members must carefully balance their responsibilities to their respective institutions and/or conferences with the obligation to advance the interests of the Association, the division or the sport, and ultimately enhance the student-athlete experience. While the fiduciary obligations of committee members to their own institution, their conference and to the Association ordinarily are not in conflict, it is recognized that as a representative membership organization, committee members’ fiduciary obligations are first to their institution, second to their conference and third to the Association. NCAA committee service involves important ethical and moral obligations. Committee integrity is critical to the decision-making process and includes trust, confidentiality and honesty in all issues and aspects of service and representation. NCAA committee members shall disclose any conflict or potential conflict between their respective personal, professional, institutional, conference or business interests and the interests of the Association that may affect or otherwise threaten such integrity, in any and all actions taken by them on behalf of the Association, for committee evaluation under this policy.

In addition to any fiduciary obligation to their institution and conference, committee members also have a fiduciary duty to the Association not to use knowledge or information obtained solely due to service on that committee to the disadvantage of the Association during the term of committee service. Further, a committee member shall not participate in the committee’s discussion or vote on any action that might bring direct or indirect personal financial benefit to the member or any organization (other than the member’s institution or conference) in which the member is financially interested. A committee member should also not participate in a discussion or vote for which the member’s institution or conference is to be accorded a special benefit beyond benefits shared with other institutions or conferences or is to receive a penalty or disqualification. A violation of either of the above rules by a member of the committee shall not invalidate the action taken by the committee if, following disclosure of the conflict of interest, the committee authorizes, ratifies or approves the action by a vote sufficient for the purpose, without counting the vote of the committee member with the conflict of interest, and the appropriate oversight body approves the action.

A committee member is responsible for advising the chair of any actual or potential conflicts of interest or obligations which he/she may have hereunder, and should recuse himself/herself from participating in proceedings, as may be warranted by this policy. Abuse of one’s position as a member of a committee may result in dismissal from that position. Where such abuse appears evident, a committee member will be notified by the committee chair and will have the opportunity to present a rebuttal or details of the situation.

Section 3•3 Neutrality

Site representatives are representing the NCAA and should be neutral in this role. Site representatives should dress professionally and should not wear any clothing that denotes an institutional or conference affiliation.
Section 3.4 Evaluations

SITE REPRESENTATIVE FEEDBACK
Following the championship, NCAA staff will email each site representative a link to a site evaluation form. Feedback provided by site representatives will be confidential and will be used to improve and enhance the championship. Site representatives also will be requested to participate on a teleconference following the championship to provide general feedback regarding their experience as a site representative and specific feedback regarding their respective site.

OFFICIALS EVALUATION
Following each round, please email a copy of the officials evaluation form (Appendix G) to aking@ncaa.org as soon as possible.

Section 7 • NCAA Administrative Guidelines

All policies listed in this section MUST be reviewed during the administrative meeting.

Section 7•1 Logo Policy

An institution’s official uniform and all other items of apparel (e.g., socks, headbands, T-shirts, wristbands, visors or hats, and towels) that are worn by student-athletes in competition may bear a single manufacturer’s or distributor’s normal trademark, not to exceed 2¼ square inches, including any additional material (e.g., patch) surrounding the normal trademark or logo. The logo or trademark must be contained within a four-sided geometrical figure (i.e., rectangle, square, parallelogram).

Section 7•2 Misconduct Statement

Misconduct in an NCAA championship is any act of dishonesty, unsportsmanlike conduct, unprofessional behavior or breach of law occurring incident to, en route to, from or at the locale of the competition or practice that discredits the event or intercollegiate athletics.

If the act of misconduct occurs during the competition, under normal circumstances, the individual shall be allowed to complete the competition in which he or she is participating at the time of the incident. An administrative hearing shall be held at the conclusion of the day’s competition, during a break in the continuity of the championship (e.g., between rounds of a hockey tournament) when no competition is being conducted or at the conclusion of the championship. However, if the act of misconduct is so flagrant that it obviously violates the principles of fair play and sportsmanship, the games committee may immediately withdraw the student-athlete or institutional representative from the competition and conduct the hearing after this action. Other acts of misconduct should be dealt with in a timely manner by the governing sports committee. Criticism of officials during press conferences may constitute misconduct.

Section 7•3 Use of Tobacco Products

[Reference: Bylaws 11.1.5 and 17.1.6.3 in the NCAA Division III Manual.]

The use of tobacco products is prohibited by student-athletes and all game personnel (e.g., coaches, athletic trainers, managers and game officials) during practice and competition. A student-athlete who uses tobacco products during a practice or competition shall be disqualified for the remainder of that practice or competition.

Section 7•4 Drug Testing Statement

Note: This statement MUST be read at every administrative meeting.

NCAA championships committees, following a recommendation from the NCAA drug-testing subcommittee, have discontinued the practice of announcing whether drug testing will be conducted at NCAA championship events.

Although knowing before competition whether NCAA drug testing was to occur had value for reasons of convenience, it left open the possibility that student-athletes might be tempted to use banned substances if they knew that NCAA testing was not being conducted at the site of competition.

Therefore, all coaches and student-athletes should presume that NCAA drug testing will occur at this championship event. Please inform your student-athletes that in the event they are notified of their selection for drug testing, the student-athlete must inform an official representative of your institution (e.g., coach, athletic trainer) before proceeding to the drug-testing site. Student-athletes will be reminded by the courier to contact their team representative.
FREQUENTLY ASKED QUESTIONS FOR COACHES

Please review this section for questions that may arise regarding drug testing.

Q. Where is the drug-testing facility for this championship?
   A. Check with the tournament director, drug-testing site coordinator or the NCAA committee/staff member for the specific location.

Q. How long does drug testing take?
   A. The length of the collection process depends on the student-athlete’s ability to provide an adequate urine specimen. If the student-athlete provides an adequate urine specimen immediately on arrival at the drug-testing facility, the entire process usually is completed in approximately 20 minutes.

Q. What is an institutional representative?
   A. For Team Championships (e.g., baseball, field hockey, lacrosse, etc.): An institutional representative is an individual from the participating institution (designated by his/her institution) to assist with drug testing in the event drug testing occurs at the championship. Each team must designate an institutional representative during the administrative meeting.

   A. For Individual/Team Championships (e.g., golf, tennis, track & field, swimming, etc.): An institutional representative is an individual (e.g., coach, athletic trainer) who should be informed by the student-athlete that he/she will be proceeding to drug testing. On some occasions, an institutional representative must certify the identity of the student-athlete at the drug-testing site.

Q. When is the institution notified of drug testing?
   A. For Team Championships: An institutional representative from each team will be notified no sooner than two hours before the start of their game when drug testing is taking place. Institutional representatives will be notified by an NCAA drug-testing crew member by phone or in person at the locker room or near the playing field.

   A. For Individual/Team Championships: Only the student-athlete is notified of his/her selection for drug testing. The student-athlete is then responsible for notifying an institutional representative of his/her selection.

Q. When are student-athletes notified of their selection for drug testing?
   A. For Team Championships: Immediately after the game, an NCAA drug-testing crew member will provide the institutional representative with a list of student-athletes who have been selected for drug testing.

   A. For Individual/Team Championships: An official drug-testing courier will notify student-athletes of their selection for drug testing, usually on completion of the student-athlete’s event, session or day of competition. The student-athlete then informs an institutional representative from his/her institution before proceeding to the drug-testing site.

   A. For All Cases: At the time of notification, the student-athlete will be instructed to read and sign a drug-testing notification form.

Q. When do student-athletes need to report to drug testing?
   A. For Team Championships: Within one hour after the student-athlete has been notified.

   A. For Individual/Team Championships: The official drug-testing courier will provide the student-athlete with specific instructions as to when to report to drug testing.

   A. For All Cases:
      ■ Before checking into the drug-testing site, all student-athletes must inform an institutional representative of their selection for drug testing.
      ■ Before checking into the drug-testing site, student-athletes must complete all award and media obligations, if any.
      ■ Before leaving the championship venue, coaches should check with all student-athletes to make sure they have completed their drug-testing obligations.
Q. What if a student-athlete has trouble providing an adequate urine specimen? Can the student-athlete leave and come back later? What if the team has to leave and a student-athlete is still in drug testing?

A. A student-athlete cannot be released from the drug-testing site until an adequate specimen is provided, no matter how long it takes.

- If the rest of the team must depart the championship site prior to a student-athlete completing drug testing, an institutional representative must stay with the student-athlete.

- A coach should check with the drug-testing site coordinator for information regarding transportation back to the student-athlete’s hotel.

- If the student-athlete and/or institution incur additional expenses because of the delay in drug testing (e.g., hotel, transportation back to campus), the institution may request reimbursement from the NCAA.

Q. Will the student-athlete or the institution be reminded of their drug-testing obligation if they defer testing until later that session or day?

A. No. Once the student-athlete and the institutional representative have signed the drug-testing notification form, it is their obligation to arrive at the drug-testing site at the appropriate time.

Q. What if we play a late-night game (10 p.m. or later start, local time)?

A. The NCAA’s late-night drug-testing policy only pertains to team championships.

- An institution may defer drug testing until the next morning if its game begins at 10 p.m. or later, local time.

- The decision to defer drug testing applies to the entire team and must be determined by the institution immediately after the game and the deferred test must start before 10 a.m. local time the next day.

- An institutional representative must be present at the collection facility the next morning to identify selected student-athletes.

Q. Must a coach or other institutional representative accompany each student-athlete to the drug-testing site?

A. For Team Championships: Yes. An institutional representative must be at the collection station to certify the identity of each student-athlete. The institutional representative must remain in the collection station until all student-athletes have completed their drug test.

A. For Individual/Team Championships: It depends. If the student-athlete has deferred drug testing until later that day, an institutional representative must be at the collection station to certify the identity of each student-athlete before the student-athlete will be allowed to check in. Otherwise, the official drug-testing courier will accompany the student-athlete to drug testing.

Section 7.5 Inclement Weather

If weather conditions could alter the approved game schedule, the site representative must contact the NCAA championship manager before any decisions to change the schedule are finalized and communicated to participants. Be prepared to summarize the weather situation and have a recommendation for an alternate schedule.

Teams may order additional awards (the same award that they received) after the championship. The link to order additional awards is included in the memo that was sent to the selected teams.

   Fans are not permitted on the ice after the game.

6. Championship policies.

   a. Drug testing statement.

      NCAA championships committees, following a recommendation from the NCAA drug-
testing subcommittee, have discontinued the practice of announcing whether drug
testing will be conducted at NCAA championship events.

Although knowing prior to competition whether NCAA drug testing was to occur had
value for reasons of convenience, it left open the possibility that student-athletes might
be tempted to use banned substances if they knew that NCAA testing was not being
conducted at the site of competition.

Therefore, all coaches and student-athletes should presume that post-event NCAA drug
testing will occur at this championship event. Please note that no student-athlete will be
notified of or escorted to NCAA drug testing without the knowledge of an official,
credentialed representative from that student-athlete’s institution.

b. Misconduct statement (NCAA Bylaws 31.02.3 and 31.1.8).
Misconduct in an NCAA championship is any act of dishonesty, unsportsmanlike
conduct, unprofessional behavior or breach of law occurring incident to, en route to or
from, or at the locale of the competition or practice from the time the championship
field is announced until the team returns home that discredits the event or intercollegiate
athletics.

Criticism of Officials. Members of the coaching staff or other representatives of
participating institutions or conferences shall not make public statements critical of
officiating in any NCAA championship event. Failure to comply with this policy may
subject the individual, institution or conference to the misconduct provisions of Bylaw
31.1.8.

c. Logo policy (NCAA Bylaw 12.5.3)
An institution’s official uniform and all other items of apparel (e.g., socks, headbands,
T-shirts, wristbands, visors or hats, and towels) that are worn by student-athletes in
competition may bear a single manufacturer’s or distributor’s normal trademark, not to
exceed 2¼ square inches, including any additional material (e.g., patch) surrounding
the normal trademark or logo. The logo or trademark must be contained within a four-
sided geometrical figure (i.e., rectangle, square or parallelogram).

In addition, an institution’s official uniform cannot bear a design element similar to the
manufacturer’s that is in addition to another logo or that is contrary to the size
restriction.

A student-athlete representing an institution in intercollegiate competition is limited to
wearing apparel items that include only the logo (not to exceed 2¼ square inches) of an
apparel manufacturer or distributor. The student-athlete may not wear any apparel that
identifies another entity other than the student-athlete’s institution.
d. Hydration product/water bottles. Only Dasani product is allowed on championship sidelines/team benches. Generic water bottles (no branding) are permitted. Teams may not use water bottles with the logo taped over (e.g., Gatorade). If teams use Powerade, it must be poured into generic water bottles or Dasani/generic cups.

e. Alcohol and tobacco policy.

f. Banners, signs and noisemakers. Banners and signs cannot be attached to any part of the facility/railings.

g. Championship signage to be provided to teams after the championship. Host will distribute signage after the game; ask coaches to address team/fans about not stealing signage.
