Everyone here at Bridger Bowl is eager to welcome you, your team, friends and family to the area this March. Best of luck and we’ll see you on the mountain,

**Athlete Notification**

Couriers will notify student-athletes selected for drug testing. Student-athletes will be instructed to read and sign the Individual Championship Student-Athlete Notification Form. Depending on the sport, student-athletes may need to report to drug testing within 60 minutes of notification, after their last event of the session, after their last event of the day or at the end of their participation in the championship.

**Media Obligations**

At individual/team championships, student-athletes who are selected for drug testing must fulfill all media obligations before reporting to the drug-testing area.

**Participating Institution’s Notification**

While couriers will notify student-athletes of his/her selection for drug testing, it is the student-athlete’s responsibility to advise their institution of his/her selection for drug testing.

**Prolonged Test**

If the student-athlete’s team must depart the championship prior to a student-athlete completing drug testing, an institutional representative must remain with the student-athlete. If the student-athlete and/or institution incur additional expenses because of the delay (e.g., hotel, transportation back to campus, etc.), the institution may request reimbursement from the NCAA.

**Testing Process**

Student-athletes are drug tested through urinalysis and must provide a specimen in view of a drug-testing collector of the same gender. The length of the collection process depends on the student-athlete’s ability to provide an adequate specimen. If a student-athlete provides an adequate specimen immediately upon arriving in the drug-testing area, the entire process can be completed within 20 minutes. If the student-athlete is unable to provide an adequate specimen, he/she must remain in the drug-testing area until one is provided. There is no maximum allotted time for a student-athlete to provide an adequate specimen.

Concussion Management
The NCAA has adopted legislation that requires all active member institutions to have a concussion management plan for their student-athletes. Participating institutions shall follow their concussion management plan while participating in NCAA championships. If a participating team lacks appropriate medical staff to activate its concussion management plan, the host championship concussion management plan will be activated.
The legislation notes, in part, that a student-athlete who exhibits signs, symptoms or behaviors consistent with a concussion shall be removed from athletics activities (e.g., competition, practice, conditioning sessions) and evaluated by a medical staff member (e.g., sports medicine staff, team physician) with experience in the evaluation and management of concussions; a student-athlete diagnosed with a concussion is precluded from returning to athletics activity for at least the remainder of that calendar day; and medical clearance for return to athletics activity shall be determined by the team physician or the physician’s designee from the student-athlete’s institution. In the absence of a team physician or their designee, the NCAA tournament physician will examine the student-athlete and will determine medical clearance.

A concussion is a brain injury that may be caused by a blow to the head, face, neck or elsewhere on the body with an “impulsive” force transmitted to the head. Concussions can occur without loss of consciousness or other obvious signs. A repeat concussion that occurs before the brain recovers from the previous one (hours, days or weeks) can slow recovery or increase the likelihood of having long-term problems. In rare cases, repeat concussions can result in brain swelling, permanent brain damage and even death.

For further details please refer to the “NCAA Sports Medicine Handbook Guideline on Concussions” online at www.NCAA.org/health-safety.

### Medical Examinations

As the event sponsor, the NCAA seeks to ensure that all student-athletes are physically fit to participate in its championships and have valid medical clearance to participate in the competition. The NCAA tournament physician, as designated by the host school, has the unchallengeable authority to determine whether a student-athlete with an injury, illness or other medical condition may expose others to a significantly enhanced risk of harm and, if so, to disqualify the student-athlete from continued participation. For all other instances, the student-athlete’s on-site team physician can determine whether a student-athlete with an injury or illness should continue to participate or is disqualified. In the absence of a team physician, the NCAA tournament physician will examine the student-athlete and has valid medical authority to disqualify him or her if the student-athlete’s injury, illness or medical condition poses a potentially life-threatening risk to himself or herself. The chair of the governing sports committee (or a designated representative) shall be responsible for administrative enforcement of the medical judgment, if it involves disqualification.

### Waivers (liability)

Everyone associated with the 2020 National Collegiate Men’s and Women’s Skiing Championships must sign liability waivers and release forms which are enclosed in this mailing packet. Please reproduce these forms and have ALL members of your travel party complete and sign a form. This includes all student-athletes, coaches and other members of your team’s travel party. These forms should be turned in at the
time of your team registration at the Hilton Garden Inn. Championships Credentials will not be issued to anyone from your travel party until they complete a Liability Release Form.

Section 18 - Participant Expectations & Guidelines

**Code of Conduct**

The NCAA expects each championship to exhibit an experience that represents the highest level of fair play and good sportsmanship. The NCAA and the NCAA Division I Competition Oversight Committee expect that student-athletes, coaches and administrators do their best to ensure participation in intercollegiate athletics promotes character development for all participants, enhances the integrity of higher education and promotes civility; therefore, championship events should adhere to such fundamental values as respect, fairness, civility, honesty and responsibility. These values should be manifest not only in athletic participation, but also in the broad spectrum of activities associated with the championship event. Accordingly, the Championships Committee will take strong action in response to any form of misconduct by student-athletes, coaches and/or administrators during the entire championship. This includes criticism of officials and a misconduct incident at the competition.

**Ethical Behavior by Coaches**

Members of the coaching profession have certain inherent obligations and responsibilities to the profession, to the student-athletes and to all those with whom they come into contact in the field. Coaches are expected to be role models who conduct themselves with integrity and high ethical standards at all times.

The words and actions of a coach carry tremendous influence, particularly on the young people under his or her direction. It is, thus, imperative that he or she demonstrate and demand high principles of sportsmanship and ethical behavior.

Therefore, coaches must:

1. Always place the safety and welfare of student-athletes above the value of a win and above any personal prestige or glory.
2. Ensure that the coaching staff and all others associated with the program treat the student-athletes under their control with fairness and respect.
3. Remember that they are on public display and that their conduct reflects upon the image of their respective institutions.
4. Teach their student-athletes strict adherence to the rules and regulations of the sport, the institution and other governing bodies to which they are responsible.
5. Firmly establish with their student-athletes the standards of acceptable conduct.
6. Treat opponents and assigned officials with respect and demand that student-athletes do the same, instilling in their student-athletes the importance of respect and sportsmanship over winning.
7. Ensure that student-athletes understand that taunting, intimidating and baiting opponents is unacceptable behavior and will not be tolerated.
8. Monitor their coaching staff and student-athletes to ensure that they do not use profane and vulgar language while representing the institution.
9. Ensure, along with institutional administration, that fans are reminded of the expectations of sportsmanship and respect for officials and opponents and their supporters.

**Misconduct**

Misconduct in an NCAA championship is any act of dishonesty, unsportsmanlike conduct, unprofessional behavior or breach of law, occurring from the time the championship field is announced through the end of the championship that discredits the event or intercollegiate athletics.

**Sportsmanship**

The primary goal of the rules is to maximize the safety and enjoyment of the student-athlete. Sportsmanship is a key part of that goal. Sportsmanship should be a core value in behavior of players and bench personnel, in crowd control by game management and in the officials’ proper enforcement of the rules governing related actions.

**Sports Wagering**

The NCAA defines sports wagering as putting something at risk – such as an entry fee or a wager – with the opportunity to win something in return. The NCAA opposes all forms of legal and illegal sports wagering on college sports. Student-athletes and athletics administrators cannot place a sports wager for any NCAA-sanctioned sport. This includes wagering on the intercollegiate, amateur or professional level.

A student-athlete involved in sports wagering on the student-athlete’s institution permanently loses all remaining regular-season and postseason eligibility in all sports. A student-athlete who is involved in any sports wagering activity that involves college sports or professional athletics, through Internet gambling, a bookmaker, a parlay card or any other method employed by organized gambling, will be ineligible for all regular-season and postseason competition for at least one year.

In championships in which a bracket format is used, student-athletes, coaches and administrators may not participate in bracket competitions where there is both a required entry fee and an opportunity to win a prize. Student-athletes and administrators may participate under current NCAA rules, in bracket contests where there is no entry fee but a possibility of winning a prize. Some NCAA member schools, however, have chosen to ban student-athletes from participating in these types of bracket contests.

**Tobacco Ban**

The use of tobacco products including vaping is prohibited by all game personnel (e.g., coaches, trainers, managers and game officials) in all sports during practice and competition. Penalties (as determined by the applicable rules-making committees and sports committees with rules-making responsibilities) shall be established for such use.

The use of tobacco and vaping products is prohibited during practice and competition. A member of the official travel party who uses tobacco products during a practice or competition shall be disqualified for the remainder of that practice or competition.

Short’s Travel Management
The participating institutions shall be completely responsible for making its own travel reservations in accordance with the following:

The NCAA’s official travel agency for the tournament is Short’s Travel Management, which can be reached at 866-655-9215. Institutions can also enter travel manifest and other travel party information through the travel portal at www.shortstravel.com/ncaachamps.

The NCAA has adopted the following policies with respect to the travel and expenses incurred by the competing institution:

1. Air Transportation. Participating institutions shall be required to make all air travel arrangements with the official travel agency for the approved travel party. The NCAA will pay the agency directly for such costs. Institutions who fail to use the official agency will not receive reimbursement for their travel. When reasonable commercial space for air travel is not available, chartered flights may be offered to the traveling institution. In this case, the cost of the chartered flight will be fully paid for by the NCAA, for the official traveling party. If reasonable commercial space is available but the institution chooses
to travel by charter, the NCAA will only cover the cost of the commercial flight. The institution will be responsible for any additional cost for their chartered flight and will be billed by the official travel agency. In addition, the institution may choose to take additional travelers over the allowable travel party size. The cost for additional travelers must be paid by the institution. All charter arrangements must be made through the official travel agency. The NCAA travel department is responsible for making the determination of what should be considered reasonable options for the official traveling party.

The NCAA will reimburse fees for checked baggage charged by commercial airlines. While we encourage you to take as few bags as necessary, a maximum of two bags per person will be reimbursed. Fees for oversized or overweight bags will not be reimbursed.

The NCAA will not reimburse fees charged by the airlines to pre-assign seats, choose premium seats, or receive priority check-in.

2. Hub Rule. If an institution is eligible to use air transportation to the site of the tournament game, and there is a major airport located within 150 miles of the tournament site, then the participating institution is required to fly into/out of that airport and utilize ground transport to and from the site of competition. This also applies if the originating airport is located within 150 miles of the participating institution’s campus. This policy only applies when airfare is less expensive from the more distant airport. The NCAA travel staff may increase this mileage limit if circumstances warrant.

3. Ground Transportation. For individual-team sports, when teams are required to travel by ground transportation to the site of competition or are eligible for reimbursement at the site, reimbursement will be provided at a rate of 50 cents per mile, per participant, not the actual cost of ground transportation.

Local transportation is not reimbursable by the NCAA and must be paid by the institution. Transportation between the team’s hotel and the competition or practice site is considered local transportation. Please see the NCAA travel policies for the applicable mileage limits.

4. Per Diem. Per diem will be paid for the allowable travel party. The per diem rate and allowable days can be found in the NCAA travel policies.

5. Expense Reimbursement. Team expense reports should be filed online through the Travel Expense System (TES). The login information for the system is the same as that used for the Short’s travel portal. The system can be accessed at:

All institutions, including hosts, must complete the online reimbursement process in order to receive the appropriate reimbursement.

6. Travel Exceptions. Be advised that if extraordinary circumstances may warrant an exception to the travel policies, you must contact the NCAA travel department for approval PRIOR TO making any travel arrangements. The travel group can be reached at 317-917-6757, or by e-mail at travel@ncaa.org.
Section 20 - Tickets

- Teams with 1-3 student-athlete(s) competing are allowed 1 non-athlete.
- Teams with 4-6 student-athletes competing are allowed 2 non-athletes.
- Teams with 7-9 student-athletes competing are allowed 3 non-athletes.
- Teams with 10-12 student-athletes competing are allowed 5 non-athletes.

Section 22 - Uniforms

Student-athletes competing in the championships shall wear the official uniform of their institution in competition and related ceremonies. This applies to warm-ups and competitive uniforms.

A student-athlete may use athletics equipment or wear athletics apparel that bears the trademark or logo of an athletics equipment or apparel manufacturer or distributor in athletics competition and pre- and postgame activities (e.g.: Celebrations, pre- or postgame press conferences), provided the following criteria are met:

1. Athletics equipment (e.g.: shoes, helmets, goggles and skis) shall bear only the manufacturer’s normal label or trademark, as it is used on all such items for sale to the general public; and
2. The student-athletes institution’s official uniform (including numbered racing bibs and warm-ups) and all other items of apparel (e.g.: socks, head bands, t-shirts, wrist bands, visors or hats, and towels) shall bear only a single manufacturer’s or distributors normal label or trademark (Regardless of the visibility of the label or trademark), not to exceed 2 ¼ square inches in area (rectangle, square, parallelogram) including any additional material (e.g.: patch) surrounding the
normal trademark of logo. The student-athletes institution’s official uniform and all other items of apparel shall not bear a design element similar to the manufacturer’s trademark/logo that is in addition to another trademark/logo that is contrary to the size restriction.

Logo Policy*

[Reference: Bylaw 12.5.4 in the NCAA Division I and II Manuals, and Bylaw 12.5.3 in the NCAA Division III Manual.]

The provisions of Bylaw 12.5.4 (Divisions I and II) or Bylaw 12.5.3 (Division III) indicate that an institution’s official uniform and all other items of apparel (e.g., socks, headbands, T-shirts, wristbands, visors or hats, and towels) that are worn by student-athletes in competition may bear a single manufacturer’s or distributor’s normal trademark, not to exceed 2 1/4-square inches, including any additional material (e.g., patch) surrounding the normal trademark or logo. The logo or trademark must be contained within a four-sided geometrical figure (i.e., rectangle, square, parallelogram).

In addition, an institution’s official uniform cannot bear a design element similar to the manufacturer’s that is in addition to another logo or that is contrary to the size restrictions.

A student-athlete representing an institution in intercollegiate competition is limited to wearing apparel items that include only the logo (not to exceed 2 1/4-square inches) of an apparel manufacturer or distributor. The student-athlete may not wear any apparel that identifies any other entity, other than the student-athlete’s institution.

These restrictions apply to all apparel worn by student-athletes, and any and all credentialed personnel in the bench area during the conduct of competition, which includes any practices and pregame or postgame activities.

This bylaw will be strictly enforced at all NCAA championships and the names of individuals and institutions that are not in compliance with this bylaw shall be forwarded to the NCAA enforcement staff. Non-compliance with this legislation could result in loss of eligibility, forfeiture of points earned by those ineligible student-athletes and adjustment of team standings.

I hereby voluntarily request to participate or to have my minor child participate in the 2020 NCAA Skiing Championships being conducted at Bridger Bowl. I understand that competitive skiing activities, including training or preparation for competitions (hereinafter referred to as “Activities”), is dangerous and includes risks that are part of the sport including: changing weather conditions; snow conditions as they exist or as they may change, including ice, hardpack, powder, packed powder, wind pack, corn snow, crust, slush, cut-up snow, and machine-made snow of any depth or accumulation, including but not limited to any depth or accumulation around or near trees or snowmaking equipment; avalanches, except on open, machine-groomed ski trails; collisions with natural surface or subsurface conditions, such as bare spots, forest growth, rocks, stumps, streambeds, cliffs, trees, and other natural objects; collisions with lift towers, signs, posts, fences, enclosures, hydrants, waterpipes, or other artificial structures and their components; variations in steepness or terrain, whether natural or the result of slope design, snowmaking, or snow grooming operations, including but not limited to roads, freestyle terrain, ski jumps, catwalks and other terrain modifications; collisions with clearly visible or plainly marked equipment, including but not limited to lift equipment, snowmaking equipment, snow grooming equipment, trail maintenance equipment, and snowmobiles, whether or not the equipment is moving; collisions with other skiers; the failure of a skier to ski within that skier’s ability; skiing in a closed area or skiing outside the ski area boundary as designated on the ski area trail map; and restricted visibility caused by snow, wind, fog, sun, or darkness.

Warning, Risk of Avalanche: Avalanche hazard reduction measures within the ski area boundaries help reduce the risk of avalanches, but cannot eliminate the possibility of an avalanche occurring in avalanche prone areas and runout zones open for skiing. I acknowledge the existence of these risks and accept such risks on behalf of myself and/or my minor child.

I agree that I and/or my minor child shall conduct a thorough visual inspection of the course and the adjacent area before using the course for any training, practice or competition. I will immediately notify the jury of any safety concerns I may have. Natural and man-made obstacles and hazards exist. Fencing, equipment covers, signs, rope lines and other marking devices may be in place and mark some, but not all of the potential obstacles or hazards. These markers will not prevent injury. I understand it is my/my child’s responsibility to stay away from marked areas. I acknowledge the existence of these risks and accept such risks on behalf of myself and/or my minor child whether they are marked or unmarked.

I am aware and understand the difficulty and risk may be increased by the manner in which the course is used by the participant, including but not limited to; speed, angle, ability and other factors controlled by the participant and that injuries are a common and ordinary occurrence of the Activities. I am aware that participation in and/or training/practicing for competitive events may result in loss, damage, expense or injury (including death) from these risks and I voluntarily accept such risks on behalf of myself and/or my minor child.

I am aware and understand that the NCAA is responsible for all decisions pertaining to the operation of this competition, including but not limited to: the condition of the course and adjacent areas; setting of courses; coaching and training; safety measures, including fencing, padding, personnel management and other precautions necessary to conduct racing and/or training operations.

With full knowledge and understanding of the risk of severe injury and death involved in competitive skiing and training, I freely and voluntarily accept and fully assume the risk that I or my minor child may suffer temporary, permanent or even fatal injuries.

By signing this document you may be waiving your legal right to a jury trial to hold the provider legally responsible for any injuries or damages resulting from risks inherent in the sport or recreational opportunity or for any injuries or damages you may suffer due to the provider’s ordinary negligence that are the result of the provider’s failure to exercise reasonable care.

I have carefully read this Warning, Notification of Risks, understand it, and accept it’s terms.
