

PLEASE NOTE THAT ENTRY TIMES DO NOT AUTOMATICALLY UPDATE. If your swimmers have been faster since you started or completed your entries, you will need to manually update their entry times. Make sure the new times have been entered into the database and show in the NCAA times searches.

<u>Step 1</u>: Sign into the USA Swimming website using the same username and password that you used to initiate the entry.

<u>Step 2</u>: Navigate to the Online Meet Entry home page. **Events > Online Meet Entry** 

Step 3: Select My Meets, and then select Edit My Entry for the appropriate meet.

<u>Step 4</u>: Navigate to the **Individual Events** page or **Relay Events** page within your entry. The **Review Individual Entry Times** or **Update Relay Entry Times** will also take you to these pages.

Step 5: Update Individual Entry Times:

-----

Click on Identify Faster Times. You will get a list of times that updated.

## Update Relay Entry Times:

Find the time that you want to update in the list of Relay Entries and click on the time (see **RED** arrow in screenshot below). You will be taken to the entry time page seen below. If the selected relay has swum a faster time and it <u>has</u> been uploaded to SWIMS, it will populate in the **Time in Database** field.
