ENTRY INFORMATION

Diving Entries

- Qualification for a diving event must be achieved in bona fide competition. The definition and requirements for meeting bona fide competition is detailed in Rule 9 for the 2019-20 and 2020-21 NCAA Swimming and Diving Rules Book.

- In order to qualify for the diving events at the championships, a diver must participate in his or her respective zone-qualifying meet. In order to qualify to compete in a zone-qualifying meet, the diver must have achieved the qualifying standards for minimum point totals in bona fide competition in at least one event. The qualifying standards for divers are available online at www.ncaa.org by navigating to: Division I > Championships > Swimming and Diving. The competition point totals must be submitted on an officials NCAA diving online form.

- A diver’s score sheet must be certified by a referee and a coach along with the diver’s signature. A qualifying score achieved and entered on DiveMeets.com may serve as documentation for a valid qualifying score as an alternative to the signed diving score sheet.

- DiveMeets will be used at each of the zone diving meets and divers must register online for their respective zone meet.

- All coaches wishing to enter a diver into their respective zone diving meet must submit the zone diving entry form by 5 p.m. Eastern time, Wednesday, March 4. If a diver qualifies during the last weekend before the zone diving meets, a waiver request may be submitted to the committee to allow for late entries. Waivers must be emailed to Carol A. Reep (careep@ncaa.org) for women and Liz Homrig (lhomrig@ncaa.org) for men. Directions for submitting the zone diving form will be available online (NCAA.org, NCAA Connect, Championships, Division I Swimming and Diving) in January. Late and/or incorrect submissions will result in a fine of $500.

Procedures

- All springboard diving events will consist of a preliminary round of six optional dives, including one from each of the five groups plus an additional dive that may be selected from any group. The top 18 finishers from the preliminary round will advance to the final round and will perform a second list of six optional dives, including one from each of the five groups plus an additional dive that may be selected from any group. All dives will be performed in any order without limit on degree of difficulty. Scores on all dives performed by each of the divers in the prelims and the finals shall be used to determine finals placing.

- For platform prelims, each diver will do six optional dives (men), including one from each of six groups, or five optional dives (women), including one from each of the five groups, from any competitive platform level (i.e. 5, 7.5 or 10 meters), in any order, without limit on degree of difficulty. The top 18 finishers from the preliminary round will advance to the final round and will perform a second list of six optionals (men) including one from each of the six platform groups or five optionals (women) including one from each of five groups. All dives will be performed from any competitive level in any order without limit on degree of difficulty. Scores on all dives performed by each of the divers in the prelims and the finals shall be used to determine finals placing.

- Divers in the finals are allowed to practice during the 10-minute break. The diving order for finals will remain the same, with the non-qualifying divers being removed from the starting order.
In all events, preliminary scores will carry forward and be added to the scores in the finals to determine final placement.

**Tie-Breaking Procedures at Zone Qualification Meets**

In the event of a tie between two or more divers who are vying for a final selection spot from a zone qualifying meet, the tie will be broken by comparing each of the diver’s highest score from both their two lists (preliminary and finals). The diver with the highest score would advance to the championships, and the other diver will become the first alternate from that respective zone.

**Judges**

Panels of judges shall be drawn by the NCAA Diving Sub-Committee members in attendance before the coaches meeting. Panels should be drawn so that all conferences are represented equally, if possible. The panels of judges shall then be presented to all coaches for final approval at the coaches meeting. Any coach wanting to observe the drawing of panels may do so.

---

Divers will qualify for the NCAA championships based on performances at their respective zone meet.

**Qualifying Procedures**

The top five female and top four male divers from each event at their respective zone diving meet will be eligible to compete at the NCAA Championships. Additional place finishers in each event at each zone will be eligible based on the number of student-athletes from that zone who finished in the top 16 in that event at the previous year’s NCAA Championships. All eligible divers must have achieved the zone qualifying score prior to the NCAA Championships in all events they wish to participate.

**Optional Entry**

Any diver that is eligible to compete as noted above will be allowed to optionally enter any other event(s) at the championships, provided that the diver finished in the top 12 at the same zone meet and has achieved the zone qualifying score for that event prior to the NCAA Championships.

**Example**

Zone A had two divers finish in the top 16 on 1-meter at last year’s NCAA women’s championships; therefore, the top seven divers (5+2) would then be eligible to compete at this year’s NCAA championships.
in the 1-meter event. Additionally, those seven divers may dive the 3-meter and or platform events provided they have met the requirements noted above.

**Reimbursement Procedure**

The reimbursement system for divers who are eligible to compete in the NCAA Championships will remain the same as the 2018-19 season qualifying system. Divers will be eligible for reimbursement based on performances at their respective zone meet. The results from the previous year’s NCAA championships, along with a priority-placement grid (Figure 1) will be used to determine the total allocated reimbursement spots for each zone. Each zone will receive a minimum of four reimbursements for men and women. These guaranteed reimbursements will fill 20 of the 41 and 20 of the 35 allotted for men and women respectively. The priority-placement grid will then be used to fill the remaining 21 spots for women and 15 for men. All remaining eligible divers that do not receive reimbursement will be allowed to attend the NCAA championships as an institutionally funded participant.

Facility Information

Within the Ramsey Center lies the home of Georgia's swimming and diving program - Gabrielsen Natatorium. Dedicated in January of 1996, Gabrielsen Natatorium honors the service of legendary swimming coach B.W. Gabrielsen. The natatorium area contains three separate pools. The 50-meter competition pool contains 844,000 gallons of water and can be configured into four different layouts by using the two movable bulkheads to allow for both short- and long-course training. Gabrielsen Natatorium is located at 330 River Rd, Athens, Georgia 30602.

Two 1-meter springboards, two 3-meter springboards and five diving platforms (1, 3, 5, 7.5 and 10 meters) cantilever over the diving pool. The diving pool is 16 to 17 feet deep, contains 525,000 gallons of water and is equipped with an air sparger system to cushion a diver's entry into the water.

**MERCHANDISE**

Event1 is the official merchandiser for NCAA championships. Merchandise will be available inside Ramsey Student Center adjacent to the Gabrielsen Natatorium starting 90 minutes prior to the start of the day’s events. It will remain open throughout competition.
PROTEST PROCEDURE

- At the coaches meeting, a meet committee must be designated who will hear and decide all protests.

- The diving sub-committee members for each region are automatically on the meet committee; the additional members must be nominated or can volunteer to be part of the meet committee; however, there should be no more than five total meet committee members. If there are more nominations or volunteers than necessary, names will be drawn out of a hat. The meet committee shall have fair representation (i.e., two coaches from the same conference should not be allowed if there are more than five conferences in the zone, etc.).

- If a protest should occur, the protesting coach should find a member of the meet committee to turn in the protest form.

- Protests must be received within 30 minutes of the final diving results of that particular event. (See the protest form at the back of this manual.)

- A member of the meet committee must call Liz Homrig (317-966-0035) or Carol A. Reep (317-966-6520) to communicate what the protest entails.

- The meet committee will review and vote on the protest; if a protesting coach is involved with the meet committee, they should remove themselves from discussion and voting. (Determine if there should be an alternate selected for the meet committee in case this situation occurred so there would always be five total members and eliminate opportunity for a tie vote?)

- The meet committee will communicate back to the protesting coach what action they agreed upon. All protests are final once action has been taken.

UNIFORMS

Regulations regarding uniforms for divers are detailed in Rule 3 of the 2019-20 and 2020-21 NCAA Swimming and Diving Rules Book. If a student-athlete competes in an illegal swimsuit, that student-athlete shall be disqualified from that event.

VIDEOTAPING

Videotaping for personal use is permitted if it does not interfere with spectators or media. Each participating team is permitted to have one person tape competition with a single camera for institutional purposes only. Flash photography is prohibited.
