

Approved Selection Process for 2020

Men's Selection Process

Step 1	Select the top 16 individuals in each individual event. Twenty-four spots for divers will be reserved and determined through the regional diving process.
Step 2	Entries will be added to each relay event, filling across rows until each relay event has 16 entries. If the participant cap has not yet been reached, skip to Step 5.
Step 3	If, at some point, the addition of one relay per event to the entire order of events puts the field over the total participant cap number, the relay whose time is greatest in percentage to the Division III established "B" cut will be selected by entry until 16 relays are selected or the maximum participant number is reached. No additional relays will be added if the next relay for selection would surpass the maximum participant number or the last complete individual row. If the disparity between complete individual rows and complete relay rows is not more than one, skip to Step 5.
Step 4	After the selection process is conducted, if there is a disparity of more than one between individual and relay complete rows, then one individual event row is eliminated and the process returns to Step 2. No more than 16 relays will be selected.
Step 5	If, after selecting relays, there are still additional spots left to fulfill the participant cap number, additional individuals whose time is greatest in percentage to the Division III established "B" cut will be selected by 1 individual entry until the participant cap is reached.

Women's Selection Process

Step 1	Select the top 20 individuals in each individual event. Twenty-nine spots for divers will be reserved and determined through the regional diving process.
Step 2	Entries will be added to each relay event, filling across rows until each relay event has 20 entries. If the participant cap has not yet been reached, skip to Step 5.
Step 3	If, at some point, the addition of one relay per event to the entire order of events puts the field over the total participant cap number, the relay whose time is greatest in percentage to the Division III established "B" cut will be selected by entry until 20 relays are selected or the maximum participant number is reached. No additional relays will be added if the next relay for selection would surpass the maximum participant number or the last complete individual row. If the disparity between complete individual rows and complete relay rows is not more than one, skip to Step 5.
Step 4	After the selection process is conducted, if there is a disparity of more than one between individual and relay complete rows, then one individual event row is eliminated and the process returns to Step 2. No more than 20 relays will be selected.
Step 5	If, after selecting relays, there are still additional spots left to fulfill the participant cap number, additional individuals whose time is greatest in percentage to the Division III established "B" cut will be selected by 1 individual entry until the participant cap is reached.
