Drug Testing

All student-athletes are subject to NCAA drug testing at all NCAA championships or in conjunction with all postseason certified events. The goal of the drug-testing program is to provide safe, fair and equitable competition as well as to protect the health and safety of all NCAA student-athletes participating in NCAA championships and postseason certified events.

2025 NCAA Division I Tennis Championships

May 15-18 – Hurd Tennis Center

Waco, Texas

The drug-testing program involves collecting urine specimens from student-athletes at various times throughout an NCAA championship. Student-athletes may be selected for drug testing based on their place of finish, position and/or an approved random selection method. A student-athlete may be selected for drug testing on more than one occasion during the championship event. All urine specimens provided by student-athletes are analyzed by a World Anti-Doping Agency accredited laboratory and the results are then reported to the institution's director of athletics.

The WADA laboratory analyzes each urine specimen for substances and related compounds from a list of banned-drug classes developed by the NCAA Executive Committee. Refer to the 2024-25 NCAA Drug-Testing Program booklet on the [NCAA website](#) for the published list of banned drug classes and the procedural guidelines for testing. Athletic administrators are urged to review the NCAA Drug Education and Testing video, the NCAA Banned Drug Classes List as well as the NCAA Drug-Testing Program booklet with all coaches and student-athletes before any NCAA championship or postseason certified event. Student-athletes who test positive as a result of a drug test administered by the NCAA or who breach the NCAA drug-testing program protocol shall lose one year of eligibility and shall be charged with the loss of a minimum of one season of competition in all sports.

Please note, if NCAA drug testing does not occur during a championship round and/or a drug test is required outside the standard championship protocol (e.g., national record, world junior record, etc.), the cost associated with such a drug test will be the responsibility of the tested student-athlete's institution.

At individual/team championships, student-athletes who are selected for drug testing must fulfill all media obligations before reporting to the drug-testing area.

Participant notification – Announcing in advance whether drug testing will be conducted at a championship is strictly prohibited. All coaches and student-athletes should presume that postevent NCAA drug testing will occur at the championship event. Couriers will notify student-athletes of selection for drug testing.

Additional information regarding the NCAA's championship drug-testing program is located [here](#).

Concussion Management

The NCAA has adopted legislation that requires all active member institutions to have a concussion management plan for their student-athletes. Participating institutions shall follow their concussion management plan while participating in NCAA championships. If a participating team lacks appropriate medical staff to activate its concussion management plan, the host championship concussion management plan will be activated.

The legislation notes, in part, that a student-athlete who exhibits signs, symptoms or behaviors consistent with a concussion shall be removed from athletics activities (e.g., competition, practice, conditioning sessions) and evaluated by a medical staff member (e.g., sports medicine staff, team physician) with experience in the evaluation and management of concussions; a student-athlete diagnosed with a concussion is precluded from returning to athletics activity for at least the remainder of that calendar day; and medical clearance for return to athletics activity shall be determined by the team physician or the physician's designee from the student-athlete's institution. In the absence of a team physician or their designee, the NCAA tournament physician will examine the student-athlete and will determine medical clearance.

A concussion is a brain injury that may be caused by a blow to the head, face, neck or elsewhere on the body with an "impulsive" force transmitted to the head. Concussions can occur without loss of consciousness or other obvious signs. A repeat concussion that occurs before the brain recovers from the previous one (hours, days or weeks) can slow recovery or increase the likelihood of having long-term problems. In rare cases, repeat concussions can result in brain swelling, permanent brain damage and even death.

NCAA Policies and Requirements

Certification of Eligibility/Availability

Only student-athletes eligible under NCAA Bylaws 12, 13, 14, 15 and 16 may compete in NCAA championships. In accordance with Bylaw 3.2.4, member institutions are required to certify the eligibility of their student-athletes before the beginning of each academic year and to withhold ineligible student-athletes from all intercollegiate competition. Institutions are responsible for monitoring/determining the eligibility of student-athletes at the start of each semester/quarter. Member institutions are reminded to notify the NCAA national office before the selection date for each championship of any student-athlete who may have participated in regular-season competition but subsequently is determined to be ineligible or unavailable for NCAA championships competition.

It is critical for coaches to immediately inform the NCAA championship manager, John Bugner (jbugner@ncaa.org; 317-522-7220), of student-athletes who have become unavailable to compete, since another student-athlete could lose the opportunity to participate in the championships if this information is not received. This applies to student-athletes who have been selected to the championships and become ineligible.

Ethical Behavior by Coaches

As a member of the coaching profession, coaches have inherent obligations and responsibilities to the profession, to the student-athletes, and to all those with whom they come into contact. Coaches are expected to be role models and to conduct themselves with integrity and high ethical standards at all times. In order to fulfill these responsibilities, a coach must do the following:

- Per NCAA bylaws, conduct all intercollegiate competition in accordance with the playing rules of the Association.
- Place the safety and welfare of others ahead of winning and personal prestige.
- Treat all people with honesty, fairness and respect. (In particular, such things as vulgar and profane language or taunting, intimidating or baiting opponents or the media, are not acceptable from a coach or a student-athlete.)

2025 NCAA Division I Tennis Championships

May 15-18 – Hurd Tennis Center

Waco, Texas

- Teach and model for student-athletes and staff members strict adherence to the rules and regulations of the sport and its governing bodies.
- Recognize, accept and teach to the team and the staff that their public behavior projects an image of the program and the university or college they represent. Therefore, behavior should be appropriate and honorable at all times.

Misconduct/Code of Conduct

Misconduct is defined as “any act of dishonesty, unsportsmanlike conduct, unprofessional behavior or breach of law, occurring from the time the championship field is announced through the end of the championship that discredits the event or intercollegiate athletics.”

Public criticism of officials may subject the individual, institution or conference to the misconduct provisions.

The games committee is authorized to (1) reprimand publicly or privately, (2) disqualify from future participation, and/or (3) ban from subsequent competition a student-athlete or representative of the institution who is guilty of misconduct at any time during the championship.

Sports Wagering

The NCAA defines sports wagering as putting something at risk – such as an entry fee or a wager – with the opportunity to win something in return. The NCAA opposes all forms of legal and illegal sports wagering on college sports. Student-athletes and athletics administrators cannot place a sports wager for any NCAA-sanctioned sport. This includes wagering on the intercollegiate, amateur or professional level.

Student-athletes found in violation of NCAA sports wagering rules will be ineligible for competition, subject to appeal to the Committee on Student-Athlete Reinstatement. The appropriate penalties will be considered on a case-by-case basis based on the division’s student-athlete reinstatement sports wagering penalty guidelines.

Tobacco Ban

The use of tobacco products is prohibited by all game personnel (e.g., coaches, athletic trainers, managers and game officials) in all sports before, during and after practice and competition. Uniform penalties (as determined by the applicable rules-making committees and sports committees with rules-making responsibilities) shall be established for such use.

The use of tobacco products by a student-athlete is prohibited before, during and after practice and competition. A student-athlete who uses tobacco products during a practice or competition shall be disqualified for the remainder of that practice or competition.

The use of tobacco products surrounding NCAA championships is against championship policy and many facility policies. Violations of this policy are subject to misconduct penalties and team administrators are asked to ensure this policy is adhered to, particularly at the competition site and in any public settings. Penalties for violating this policy are outlined in the misconduct provisions and may include financial implications.

Participant Expectations and Guidelines

Play will be governed by U.S. Tennis Association rules and regulations except as modified by the NCAA Division I Men's and Women's Tennis Committee and the Intercollegiate Tennis Association.

Coaching and Playing-Court Restrictions

Coaching will be permitted at the championships, provided it does not interfere with play. Each team will be permitted to designate two assistant coaches, including student-athletes. These individuals must be designated on the lineup sheet before each match. Head coaches must be able to verify that the designated assistant coach is recognized by the institution.

Defaults

All matches will be scheduled at definite times. Any player not ready to play after the match is called is subject to the USTA penalty for delay of match. Also, any player who acts in any way that is not in the best interest of the game may be defaulted. Additionally, per ITA rules, misconduct by a coach will result in a point penalty against the court where the behavior occurred, and further misconduct will warrant removal from the facility. The decision will be made by the head referee and/or games committee.

Lineups

The lineup for championship play is submitted to the referee during the mandatory administrative meeting before the start of competition. The lineup must consist of:

1. Student-athletes listed on the official NCAA lineup form submitted no later than **Sunday, April 28**.
2. A minimum of six players present and physically capable of competing.
3. A maximum of nine players, including any doubles specialists.

In singles competition, position Nos. 1-5 shall remain the same for the duration of the championship. Position No. 6 may be filled with any of the four remaining players on the lineup and may change from match to match.

The student-athletes listed on a team's lineup for the first round will remain the same for the second round. Teams advancing to the super regional may change the nine athletes on their lineup for that round. Teams advancing to the championships finals site may change the nine athletes on their lineup for the quarterfinals. The student-athletes listed on a team's lineup for the quarterfinals will remain the same for the semifinals and finals. Any student-athlete listed on a lineup must have been listed on the team's original lineup form.

The lineup challenge process for the final site will follow this timeline (all times Eastern).

Waco, Texas

Final lineups posted	Wednesday, May 14 - by 9 a.m.
National championship competition start	Thursday, May 15

Lineups for the 64 teams selected to the championship will be posted on the NCAA's website (www.ncaa.org) immediately after the completion of the selection show, **Monday, April 28**.

Replacement/Substitutions. Each round, the team's lineup is as listed in its master lineup. The referee must be notified of any changes to this master lineup before the start of play for the affected match(es). If the referee has not been informed of the lineup change, the affected match(es) are defaulted.

Head coaches are required to inform the referee of any changes in the lineups at the required time under ITA rules. A substitution can only be made in the lineup following ITA rules. In such cases, the lineup must remain consistent with ITA rules in order of strength, with student-athletes moving up in singles according to the team's approved lineup. For doubles competition, any replacement is a straight-line substitution. The three doubles teams must remain in order of strength consistent with ITA rules.

In doubles, a coach may direct-line substitute for one sick/injured player on a doubles team as long as the teams are placed in order of ability. The opposing coach may protest a doubles lineup if they feel the teams are not in order before the start of the match. The on-site games committee, in consultation with the NCAA Division I Men's and Women's Tennis Committee, will have final ruling on all on-site protests.

Direct-Line Substitution Rule. A direct-line substitution is the removal of ONE of the two players on a doubles team. That player is replaced by a player NOT in the top three positions of the doubles lineup. Once the new player has been inserted, per above, the teams MAY be reordered to reflect the new order of strength. Removal of two players from the same doubles position in a doubles lineup (regardless of timing) DOES NOT allow for a direct-line substitution of both players on the same doubles position/team. Instead, that team is removed and the doubles teams listed below that team would move up (much like when a singles player is removed). If there is no #4 team listed, that team would forfeit the #3 position.

The games committee has the right to review and, if necessary, overrule a coach's decision regarding a lineup change, based on the ability of the players and matches during the season.

In team competition, if a player is injured during the pro-set doubles and that player is in the singles lineup, substitutions may be made for singles play but the lineup must remain consistent with ITA rules and follow the order of strength submitted on the lineup.

In the team competition, a match is considered underway once the first ball has been struck in that match.

Logos

A student-athlete may use athletics equipment or wear athletics apparel that bears the trademark or logo of an athletics equipment or apparel manufacturer or distributor in athletics competition and pre- and postgame activities (e.g., celebrations on the court, pre- or postgame press conferences), provided the following criteria are met:

2025 NCAA Division I Tennis Championships

May 15-18 – Hurd Tennis Center

Waco, Texas

1. Athletics equipment (e.g., shoes and racquets) shall bear only the manufacturer's normal label or trademark, as it is used on all such items for sale to the general public.
2. The student-athletes institution's official uniform (including warmups) and all other items of apparel (e.g., socks, headbands, T-shirts, wristbands, visors or hats, and towels) shall bear only a single manufacturer's or distributor's normal label or trademark (regardless of the visibility of the label or trademark), not to exceed 2¼ square inches in area (rectangle, square, parallelogram) including any additional material (e.g., patch) surrounding the normal trademark or logo. The student-athletes institution's official uniform and all other items of apparel shall not bear a design element similar to the manufacturer's trademark/logo that is in addition to another trademark/logo.

Misconduct

The Division I Tennis Committee has set guidelines for postmatch code assessments.

Team Championship

The committee confirmed that if a postmatch code cannot be applied during the team match:

1. Any postmatch code is carried over to the offending student-athletes next opportunity during that championship.
2. If the offending student-athlete has completed play in the championship, any postmatch code will be assessed at the first opportunity to the offending student-athletes teammate(s) playing/continuing in the championships.
3. The assessment will be applied at the start of the next game or, if in a tiebreaker, then immediately (per USTA Friend at Court).
