Drug Testing

All student-athletes are subject to NCAA drug testing at all NCAA championships or in conjunction with all postseason certified events. The goal of the drug-testing program is to provide safe, fair and equitable competition as well as to protect the health and safety of all NCAA student-athletes participating in NCAA championships and postseason certified events.

The drug-testing program involves collecting urine specimens from student-athletes at various times throughout an NCAA championship. Student-athletes may be selected for drug testing based on their place of finish, position and/or an approved random selection method. A student-athlete may be selected for drug testing on more than one occasion during the championship event. All urine specimens provided by student-athletes are analyzed by a World Anti-Doping Agency accredited laboratory and the results are then reported to the institution's director of athletics.

The WADA laboratory analyzes each urine specimen for substances and related compounds from a list of banned-drug classes developed by the NCAA Executive Committee. Refer to the 2026-27 NCAA Drug-Manual on the NCAA website for the published list of banned drug classes and the procedural guidelines for testing. Athletics administrators are urged to review the NCAA Drug Education and Testing video, the NCAA Banned Drug Classes List as well as the NCAA Drug-Testing Program booklet with all coaches and student-athletes before any NCAA championship or postseason certified event. Student-athletes who test positive as a result of a drug test administered by the NCAA or who breach the NCAA drug-testing program protocol shall lose one year of eligibility and shall be charged with the loss of a minimum of one season of competition in all sports.

Please note, if NCAA drug testing does not occur during a championship round and/or a drug test is required outside the standard championship protocol (e.g., national record, world junior record, etc.), the cost associated with such a drug test will be the responsibility of the tested student-athlete's institution.

At individual/team championships, student-athletes who are selected for drug testing must fulfill all media obligations before reporting to the drug-testing area.

Participant notification – Announcing in advance whether drug testing will be conducted at a championship is strictly prohibited. All coaches and student-athletes should presume that post-event NCAA drug testing will occur at the championship event. Couriers will notify student-athletes of selection for drug testing.

Additional information regarding the NCAA's championship drug-testing program is located here.

Participant Medical Call

The host medical staff will lead a videoconference for participating team medical staff before the start of the tournament. Kaylee Shaver will reach out to all participating team's athletic trainers or athletic training staff directors to send out the virtual link.

Concussion Management

The NCAA has adopted legislation that requires all active member institutions to have a concussion management plan for their student-athletes. Participating institutions shall follow their concussion management plan while participating in NCAA championships. If a participating team lacks appropriate medical staff to activate its concussion management plan, the host championship concussion management plan will be activated.

The legislation notes, in part, that a student-athlete who exhibits signs, symptoms or behaviors consistent with a concussion shall be removed from athletics activities (e.g., competition, practice, conditioning sessions) and evaluated by a medical staff member (e.g., sports medicine staff, team physician) with experience in the evaluation and management of concussions. A student-athlete diagnosed with a concussion is precluded from returning to athletics activity for at least the remainder of that calendar day; and medical clearance for return to athletics activity shall be determined by the team physician or the physician's designee from the student-athlete's institution. In the absence of a team physician or their

designee, the NCAA tournament physician will examine the student-athlete and will determine medical clearance.

A concussion is a brain injury that may be caused by a blow to the head, face, neck or elsewhere on the body with an "impulsive" force transmitted to the head. Concussions can occur without loss of consciousness or other obvious signs. A repeat concussion that occurs before the brain recovers from the previous one (hours, days or weeks) can slow recovery or increase the likelihood of having long-term problems. In rare cases, repeat concussions can result in brain swelling, permanent brain damage and even death.

For further details please refer to the "NCAA Sports Medicine Handbook Guideline on Concussions" online at https://www.ncaa.org/sports/2021/2/10/sport-science-institute-concussion.aspx.

NCAA Policies and Requirements

Certification of Eligibility/Availability
Only student-athletes eligible under NCAA Bylaws 12, 13, 14, 15 and 16 may compete in NCAA championships. In accordance with Bylaw 3.2.4, member institutions are required to certify the eligibility of their student-athletes before the beginning of each academic year and to withhold ineligible student-athletes from all intercollegiate competition. Institutions are responsible for monitoring/determining the eligibility of student-athletes at the start of each semester/quarter. Member institutions are reminded to notify the NCAA national office before the selection date for each championship of any student-athlete who may have participated in regular-season competition but subsequently is determined to be ineligible or unavailable for NCAA championships competition.

It is critical for coaches to immediately inform the NCAA championship manager, Paige Newman (women's) (pnewman@ncaa.org; 317-778-9808) and/or Kelsi Mahoney (men's) (kmahoney@ncaa.org; 317-225-9293), of student-athletes who have become unavailable to compete, since another student-athlete could lose the opportunity to participate in the championships if this information is not received. This applies to student-athletes who have been selected to the championships and become ineligible.

Ethical Behavior by Coaches

As a member of the coaching profession, coaches have inherent obligations and responsibilities to the profession, to the student-athletes, and to all those with whom they come into contact. Coaches are expected to be role models and to conduct themselves with integrity and high ethical standards at all times. In order to fulfill these responsibilities, a coach must do the following:

- Per NCAA bylaws, conduct all intercollegiate competition in accordance with the playing rules of the Association.
- Place the safety and welfare of others ahead of winning and personal prestige.
- Treat all people with honesty, fairness and respect. (In particular, such things as vulgar and profane language or taunting, intimidating or baiting opponents or the media, are not acceptable from a coach or a student-athlete.).
- Teach and model for student-athletes and staff members strict adherence to the rules and regulations of the sport and its governing bodies.
- Recognize, accept and teach to the team and the staff that their public behavior projects an image of the program and the university or college they represent. Therefore, behavior should be appropriate and honorable at all times.

Misconduct/Code of Conduct

Misconduct is defined as **"any act of dishonesty, unsportsmanlike conduct, unprofessional behavior or breach of law, occurring from the time the championship field is announced through the end of the championship that discredits the event or intercollegiate athletics."**

Public criticism of officials may subject the individual, institution or conference to the misconduct provisions.

The games committee is authorized to (1) reprimand publicly or privately, (2) disqualify from future participation and/or (3) ban from subsequent competition a student-athlete or representative of the institution who is guilty of misconduct at any time during the championship.

Sports Wagering

The NCAA defines sports wagering as putting something at risk – such as an entry fee or a wager – with the opportunity to win something in return. The NCAA opposes all forms of legal and illegal sports wagering on college sports. Student-athletes and athletics administrators cannot place a sports wager for any NCAA-sanctioned sport. This includes wagering on the intercollegiate, amateur or professional level.

Student-athletes found in violation of NCAA sports wagering rules will be ineligible for competition, subject to appeal to the Committee on Student-Athlete Reinstatement. The appropriate penalties will be considered on a case-by-case basis based on the division's student-athlete reinstatement sports wagering penalty guidelines.

Tobacco Ban

The use of tobacco products is prohibited by all game personnel (e.g., coaches, athletic trainers, managers and game officials) in all sports during practice and competition. Uniform penalties (as determined by the

applicable rules-making committees and sports committees with rules-making responsibilities) shall be established for such use.

The use of tobacco products by a student-athlete is prohibited during practice and competition. A student-athlete who uses tobacco products during a practice or competition shall be disqualified for the remainder of that practice or competition.

Participant Expectations and Guidelines

Play will be governed by U.S. Tennis Association rules and regulations except as modified by the NCAA Division I Men's and Women's Tennis Oversight Committee and the Intercollegiate Tennis Association.

Coaching and Playing-Court Restrictions
Coaching will be permitted at the championships, provided it does not interfere with play. Head coaches must be able to verify that the designated assistant coach is recognized by the institution.

Defaults
All matches will be scheduled at definite times. Any player not ready to play after the match is called is subject to the USTA penalty for delay of match. Also, any player who acts in any way that is not in the best interest of the game may be defaulted. Additionally, per ITA rules, misconduct by a coach will result in a point penalty against the court where the behavior occurred, and further misconduct will warrant removal from the facility. The decision will be made by the head referee and/or games committee.

Logos
A student-athlete may use athletics equipment or wear athletics apparel that bears the trademark or logo of an athletics equipment or apparel manufacturer or distributor in athletics competition and pre- and postgame activities (e.g., celebrations on the court, pre- or postgame press conferences), provided the following criteria are met:

1. **Brands and categories:** There are no brand or category limitations. However, all commercial logo patches must comply with applicable NCAA bylaws and playing rules.

2. **Number of logos:** Teams and individual participants may display up to two commercial logos total across uniforms and apparel, plus one additional commercial logo on equipment.

3. **Size:** Each commercial logo is limited to a maximum of four square inches.

4. **Placement:** Logo placement must comply with the tennis playing rules.

5. Athletics equipment (e.g., shoes and racquets) shall bear only the manufacturer's normal label or trademark, as it is used on all such items for sale to the general public.

6. The student-athletes institution's official uniform (including warmups) and all other items of apparel (e.g., socks, headbands, T-shirts, wristbands, visors or hats, and towels) shall bear only a single

manufacturer's or distributor's normal label or trademark (regardless of the visibility of the label or trademark), not to exceed four square inches in area (rectangle, square, parallelogram) including any additional material (e.g., patch) surrounding the normal trademark or logo. The student-athletes institution's official uniform and all other items of apparel shall not bear a design element similar to the manufacturer's trademark/logo that is in addition to another trademark/logo.

Misconduct

The Division I Tennis Championships Subcommittee has set guidelines for postmatch code assessments.

Individual Championships

The committee confirmed that during the singles or doubles championships:

1. Any postmatch code is carried over to the offending student-athletes next opportunity during that championship.
2. If the offending student-athlete has completed play in the championship, any postmatch code will be assessed at the first opportunity to the offending student-athletes teammate(s) who is also in the singles/doubles draw.
3. If the offending student-athlete has more than one teammate playing/continuing at the time of the assessing the postmatch code, then the code will be assessed at the first opportunity to the higher seeded/ranked teammate.
4. The assessment will be applied at the start of the next game or, if in a tiebreaker, then immediately (per USTA Friend at Court).

Officials

Anthony Montero will be the head referee for the tournament. The following officials will be used at the NCAA Division I Singles and Doubles Tennis Championships:

- Chairs will be used for all matches. A chair umpire and line crew shall work the semifinals and finals.

Rest Periods

At changeovers, a maximum rest period of 90 seconds may be taken by the players. At each set-break, a maximum of 120 seconds may be taken by the players. After a two-set match, players will be provided a rest period of at least 45 minutes before their next match. After a three-set match, players will be provided at least a one-hour rest period before resuming play.

Uniforms

All competitors in the NCAA Division I Singles and Doubles Tennis Championships should wear exclusively the official uniform of their institution in competition, warmup for competition, interviews and during the awards ceremonies.
