

# VOLLEYBALL

*Please share this information with your video coordinator ASAP.*

## GET AN ACCOUNT AND LOG IN

*required*

The Volleymetrics team will add new users to the platform immediately after the selection show. We will add one user for each team who will receive an email inviting them to "Join your team!" If you did not get an invitation, check your junk/spam folder or have the staff member with an account [add you to the team admin list](#).

## CHECK OUT A BASIC PLATFORM WALKTHROUGH

[Hudl Academy • Volleymetrics Support](#)

Please review the [Video Exchange Guidelines](#) posted by the DII office last month.

## CHECK YOUR ROSTER

*required*

If we've tagged some of your matches this season for our users, we should already have your roster up to date. To be sure, check your [roster](#) on Volleymetrics and use these steps to [make updates as needed](#).

## SCHEDULING EVENTS

The Volleymetrics support team will manage the creation of matches on the schedule before each round of the tournament. The way the system works, technically anyone *can* create them, but they cannot be duplicated, so if you get to it before we do, feel free to [add matches](#) to the schedule.

## UPLOADING VIDEO

*required*

First you will be **required** to upload scout film (endline view) and scoresheet for your most recent match to the platform as outlined in the [Video Exchange Guidelines](#). If the match is already in the Volleymetrics video library you are good to go!

Throughout the rest of the tournament the video and scoresheet for your matches is **required** to be uploaded by midnight (local time) on the day of the match. Failure to do so will result in a [lockout](#) from scout film available in Volleymetrics. Typically, the program hosting matches will take responsibility for video and scoresheet uploads, but make sure that has been confirmed with your host.

Here are some useful [tutorials for video upload](#) if you are using a handheld camera.

## UPLOADING SCORESHEETS

*required*

Scoresheets must be uploaded for each match so that our team can complete a breakdown. If you have questions about scoresheet uploads check [these resources](#).
