Medical skin-Checks/Weigh-Ins

Medical skin checks/weigh-ins will be conducted daily at the T-Mobile Center in the Home NBA locker room. Only authorized personnel will be admitted to the medical check/weigh-in area.

Reporting for medical skin check/weigh-ins

All student-athletes wishing to compete are required to report to skin checks/weigh-ins at the designated time, wearing a suitable garment and no weight loss activity taking place. The penalty for failure to report on time and/or not discontinuing any weight-loss activities during medical exams is disqualification. Grooming checks will be performed at the same time as medical skin checks. All participants must have their nails clipped, facial hair must be suitable for a skin check, and hair must be within the rule's guidelines. **Participants not groomed properly will not be allowed to proceed to weigh-ins until the grooming check has been satisfied.**

Please note: the championship will adhere to all rules related to medical exam/weigh ins found in Chapter 9 of the NCAA Wrestling Rules Book, including those related to prohibited weight loss practices, which will be strictly enforced.

MEDICAL SKIN CHECK/WEIGH IN TIMES		
DATE	LINE UP	GROOMING/MEDICAL CHECK-WEIGH-IN
Thursday, March 19	8:45 a.m.	9:00 a.m.
Friday, March 20	8:45 a.m.	9:00 a.m.
Saturday, March 21	7:45 a.m.	8:00 a.m.

Scales

There will be ten (10) official digital scales available in the weigh-in area. The official scales will close 15 minutes prior to the start of medical skin check/weigh-ins each day. Unofficial scales will be available throughout the championships and will be in the locker rooms at the T-Mobile Center.

Mandatory skin-check for pre-existing conditions

There will be a separate skin-check for all those student-athletes with PRE-EXISTING skin conditions. They shall meet at 3 p.m. Wednesday, March 20 in the athletic training area on the event level at T-Mobile Center. If you have a student-athlete with a pre-existing skin condition, it is mandatory that they attend this skin-check. The only acceptable form will be the NCAA Skin Evaluation and Participation Status Form which can be found in the NCAA wrestling rules book.

The tournament physician and a dermatologist will review the pre-existing skin condition and determine whether the student-athlete will be able to participate. It is encouraged that these student-athletes be accompanied by their athletic trainer. The student-athlete, not the athletic trainers or coaches, should keep their forms with them and have them ready to provide to the dermatologist and medical staff of the championships at this meeting and again each morning. This pre-existing skin-check does not exempt any student-athlete from the regularly scheduled skin check and weigh-ins occurring each morning of the competition, but is a mandatory, additional skin check.

The championships' dermatologists, physicians and certified athletic trainers will conduct the exams. All student-athletes will be checked according to their weight. The championships' physician shall report the results of the examination to the chair of the wrestling committee or a designated representative, who shall then be responsible for the administrative enforcement of the medical recommendation, if it involves disqualification from the championships.

Please refer to NCAA Rules found in section 9.1 for all information regarding medical examination/skin checks. "A physician or a certified athletic trainer shall examine all contestants for communicable diseases before all tournaments and meets. It is recommended that this examination be made at the time of weigh-in. The presence of a communicable skin disease (or any other condition that, in the opinion of the examining physician or athletic trainer, makes the participation of that individual inadvisable), shall be full and sufficient reason for disqualification.

If the student-athlete has been diagnosed as having such a condition and is currently being treated by a physician (ideally a dermatologist) who has determined that is safe for that individual to compete without jeopardizing the health of the opponent, the student-athlete may be considered for competition. However, the student-athlete, coach or athletic trainer shall provide current written documentation from the treating physician to the medical professional at the medical examination with the approved NCAA Skin Evaluation and Participation Status Form, describing: (1) the diagnosed skin disease or condition; (2) the prescribed treatment and the time necessary for it to take effect; and (3) that the skin disease or condition would not be communicable or harmful to the opponent at the time of competition. Such documentation shall be furnished at the medical examination."

Regardless of institutional documentation per rule 9.11 in the rules book, the final medical determination on whether a student-athlete passes skin checks resides with the host site's physician. Decisions made by the championship physician are final.

If there are any questions regarding identification or proper treatment, please feel free to contact Steve Kennett skennett@kumc.edu or Doug Wiesner dwiesner@kumc.edu.

Injury Information

All participating student-athletes currently receiving modality treatment for an existing injury prior to the 2024 NCAA Division I Wrestling Championships can continue their treatment in the championships athletic training area. No treatment shall be allowed by athletic training students unless accompanied by and in direct supervision of the team's certified athletic trainer.

Evaluation/Treatment of Injuries during the Championships

Any student-athlete injured during competition will be examined by his team's physician and/or athletic trainer. In the absence of a physician or athletic trainer, a championships physician or Certified Athletic Trainer will be available to assist the injured student-athlete in any way possible. If the injury is of an obvious serious nature, the championships physician will complete the mat side evaluation. After completion of an evaluation, the physician or athletic trainer will make recommendations to the student- athlete and head coach regarding the advisability of continued participation. All procedures and resulting decisions will be in accordance with NCAA concussion management protocol and health and safety plan.

Procedure to Medically Disqualify a Student-Athlete during an NCAA Championship

As the event sponsor, the NCAA seeks to ensure that all student-athletes are physically fit to participate in its championships and have valid medical clearance to participate in the competition. The NCAA championships physician, as designated by the host school, has the unchallengeable authority to determine whether a student-athlete with an injury, illness, or other medical condition (e.g., skin infection) may expose others to significantly enhanced risk of harm, and, if so, to disqualify the student-athlete from continued participation.

The student-athlete's team physician can determine whether an individual with an injury or illness should continue to participate or is disqualified. In the absence of a team physician, the NCAA championships physician will examine the student-athlete and has valid medical authority to disqualify him if the student- athlete's injury, illness, or medical condition poses a potentially life-threatening risk to himself.

The chair of the governing sports committee (or a designated representative) shall be responsible for administrative enforcement of the medical judgment if it involves disqualification.

Student-athletes who sustain serious injuries as determined by the examining physician (e.g., significant head trauma, spinal cord injury etc.) will be transferred to one of the medical facilities shown earlier by ambulance. One ambulance will be on site throughout the course of the championships with back-up standing by.

Please note NCAA Rule 6, Section 2: "If a contestant is rendered unconscious, that wrestler shall not be permitted to continue the match after regaining consciousness without approval of a physician. A contestant who receives a temporary injury to the head, neck or spinal column that does not render that contestant unconscious shall not be permitted to continue the match without approval of a physician or certified athletic trainer."

Finally, for medical personnel, please review the [NCAA Sports Medicine Handbook](#) guideline on concussions.

T Mobile CENTER

NCAA Security Information

Introduction

T-Mobile Center provides an experienced security and guest services staff inside the arena, as well as police officers inside and outside the venue to provide security before, during and after events. Due to increased security, all participants, coaches, team administrators, personnel and medical staff entering T-Mobile Center are subject to search of their person and/or possessions (including bags of normal size which may be allowed entry after search). Enforcement will be without exceptions. NCAA issued credentials are required for every individual to enter T-Mobile Center and for access within the venue and must be always worn except for when student-athletes are practicing or competing.

Health Safety Measures

T-Mobile Center has implemented health and safety measures intended to reduce the risk of injury or exposure to illness. Currently, there is not a mask mandate for guests entering T-Mobile Center. Hand sanitizer is available to guests throughout the arena.

Coordination with Public Safety Agencies

- T-Mobile Center coordinates and schedules off-duty Kansas City Missouri Police Department officers well in advance of the event. T-Mobile Center is in daily contact with the scheduling coordinator to ensure adequate coverage for the event's needs.
- A thorough review of previous NCAA events and other sporting events played in T-Mobile Center will be conducted in advance of the event.
- The Federal Bureau of Investigation and Homeland Security will conduct a threat assessment on the venue and the surrounding area to see what types of security threats may exist.
- Based on the threat level information that we receive it will help us determine the number of uniformed police officers and arena security needed for coverage.
- A K-9 bomb sweep of the venue will be conducted by trained law enforcement by 8:30am on the day of events. Once the sweep has been completed the area will be secured until game time.
- T-Mobile Center security staff along with the Kansas City, Missouri Police Department and Federal Bureau of Investigation will maintain a presence on the outside of the venue observing the crowd and monitoring the area for suspicious activity or packages.
- The Security Command Center, administrative phone receptionist and Box Office receptionist will all have the FBI bomb threat checklist right by their telephones. This checklist is a great tool for he/she to use if they receive a bomb threat phone call.
- All demonstrators will be handled by the Kansas City Missouri Police Department and FBI inside or outside.

Deliveries

- A venue-wide all-staff email will be sent out explaining, in depth, the process for deliveries. We will encourage vendors and contractors to have deliveries made as far in advance as possible. A list of the expected deliveries during game day will be required of vendors and contractors. Deliveries not scheduled in advance will be turned away. Deliveries will also be denied during the times specified by the NCAA and Tournament officials.
- Vehicles will not be allowed within 100' feet of the building on event days. Grand Boulevard will be closed between 13th and Truman Road West North on event days. Oak Street will be open on event days, but the building is set back from the street and protected by bollards and fencing.
- No vehicles are allowed inside of T-Mobile Center. Any type of vehicle that would need to be inside the venue must be approved by the NCAA and the venue management
- All vehicles that make deliveries to the facility will be inspected by the bomb mirrors. Drivers must have a valid form of government issued identification. The vendor must be on the Security Officer sheet. Any deliveries or vendors not on the sheet will be denied access until cleared by venue management.
- All packages and deliveries will be accepted by the party for who they are intended. T-Mobile Center security will keep a log of all packages and the party who signed for them.

Demonstrations Outside the Facility

- The City of Kansas City, Missouri does not require a permit before staging a demonstration or protest.
- The types of demonstrations that would require a response from local authorities are religious protest with groups of ten or more. T-Mobile Center along with the Kansas City, Missouri Police Department, Federal Bureau of Investigation and Homeland Security will monitor any demonstrations or protests and intervene as needed.
- The Kansas City, Missouri Police Department and Federal Bureau of Investigation will closely monitor all demonstration groups in the Kansas City, Missouri area. There will be a total of two police officers and squad car that are assigned to the groups.
- Kansas City, Missouri Police Department officers will be in uniform. Federal Bureau of Investigation agents will be in plain clothes.
- The areas in which demonstration groups can demonstrate around T-Mobile Center have been established. All groups understand that they cannot demonstrate on T-Mobile Center property. Demonstrators must stay on city property, such as sidewalks outside of the venue's permitted area, and not obstruct the right-of-way of guests from entering or exiting the venue.
- If demonstrators violate the property line, they will be subject to arrest.
- Hate speech and signage are not enforced by city officials.

Emergency Action Plan

- Emergency Action Plan included with this document.
- Venue staff (full time and part-time) are trained annually regarding emergency and response procedures.
- Staff are briefed before each event and given event specific notes and guidance on topics such as:
 - o Location of AED's
 - o First Aid operations
 - o Security protocols
 - o Evacuation procedures
 - o Fire response
 - o Suspicious activity and persons
 - o Radio etiquette

Notification Of An Emergency
