REPORT OF THE
NCAA DIVISION I CABINET
OCTOBER 6-7, 2026, VIDEOCONFERENCE

***KEY ITEMS*.**

1. **NCAA Division I Proposal No. 2026-27 – Playing and Practice Seasons – Men's Soccer – Redistribution of Men's Soccer Playing Season Model.** The NCAA Division I Cabinet adopted Proposal No. 2026-27, in men's soccer to redistribute the men's soccer playing and practice season across the fall and spring semesters and move the NCAA Division I Men's Soccer Championship to the spring. The proposal is effective August 1, 2027.

   Because the proposal was adopted with less than a 75% majority, it is subject to a 30-day rescission period, which ends at 5 p.m. Eastern time, November 6, 2026.

2. **Proposal No. 2026-45 – Governance Structure and Committees – Updated Division I Legislative Process**. The cabinet adopted Proposal No. 2026-45, to establish a legislative process that supports the goals of the new Division I governance structure. The proposal is effective immediately for the January 2027 legislative cycle.

   In addition to the legislation established by the adoption of Proposal No. 2026-45, the cabinet adopted policies and procedures that provide the details of the actions that may be taken on legislative proposals in specific processes and at various stages (Attachment A). The cabinet also adopted a policy that requires at least 50% of the student-athlete representatives on a Division I committee to be in attendance in order for a committee to take legislative action and additional policies to help ensure the student-athlete committee member attendance requirement is met (Attachment B).

   The cabinet eliminated the policy requirements that the following additional information be included when a proposal is recommended or introduced: (1) The Division I commitment addressed by the proposal; (2) A statement addressing whether the proposal is consequential or nationally significant; (3) A statement addressing whether the proposal is enforceable and how its merits outweigh monitoring burdens; and (4) A statement addressing how the proposal supports student-athlete success or well-being.

   Finally, the cabinet approved a recommendation to maintain the current meeting cadence for the cabinet, which includes legislative meetings in October, January, April and June, and for the NCAA Division I Board of Directors, which includes primary meetings in August, October, January and April.

3. **Decentralization and Modernization.** The Division I Cabinet introduced legislation into the January 2027 legislative cycle for decentralization and modernization of the legislation in NCAA Bylaws 11, 13 and 17.

   a. Bylaw 11. The cabinet introduced legislation to eliminate the restriction on the number of countable coaches and student assistant coaches in all sports, strength and conditioning coaches and graduate student coaches in bowl subdivision football. Schools can contact the NCAA about any current effects the legislation

is having on its staff. The cabinet also introduced legislation to eliminate the restriction on athletically related income and benefits, compensation and renumeration and requirements to recruit off campus in Bylaw 11. Limits on off-campus recruiters would be maintained by moving existing coaching limits to Bylaw 13 (recruiting).

b. Bylaw 13. The cabinet introduced legislation to permit transportation, accommodations and entertainment for a prospective student-athlete and up to four individuals on an official visit.

c. Bylaw 17. The cabinet introduced legislation to create standardized first practice, competition and end-of-season dates. Specifically, this proposal will: 1) eliminate preseason practice legislation in all sports to establish a standard start date on which each sport is permitted to conduct transition periods, preseason or in-season countable athletically related activities; 2) amend first contest/date of competition legislation to establish a standard date on which an institution is permitted to conduct its first competition against an outside team after an established preseason practice period; and 3) establish a standard date on which an institution must cease in-season countable athletically related activities. Additionally, the cabinet introduced legislation to eliminate the restrictions on in-season foreign competition.

Effective Date: July 1, 2027.

Rationale: The NCAA Division I Decision-Making Working Group and the Division I Board of Directors identified decentralization and modernization of NCAA legislation as necessary to adapt to the changing landscape of collegiate athletics.

4. Expenses, Prize Money and Professional Participation Before Period of Eligibility. The cabinet introduced legislation into the January 2027 legislative cycle to eliminate restrictions on expenses, prize money, and involvement with a professional team that apply before an individual's period of eligibility begins. Once an individual's period of eligibility begins, existing rules that govern expenses, prize money and involvement with a professional team would continue to apply.

Effective Date: Immediate; applicable to student-athletes initially enrolling full time in a collegiate institution on or after August 1, 2027.

Rationale: This proposal would make the application of restrictions on expenses, prize money and involvement with a professional team consistent with the application of the age-based period of eligibility legislation and eliminate the restrictions before an individual's period of eligibility. This proposal is consistent with the proposed application of the Protect College Sports Act to individuals who participate in basketball.

5. **Proposal No. 2026-53 – Recruiting – Contacts and Evaluations – Division I Contest Attendance Restriction – Men's Basketball and Football.** The cabinet amended Proposal No. 2026-53 to include football and adopted the proposal, as amended. The proposal specifies that, in men's basketball an institutional staff member with responsibilities specific to men's basketball shall not attend a Division I men's basketball preseason contest, regular season contest or a contest of a conference tournament, unless the contest is one in a tournament or event in which the institution's team is participating, or the contest involves a family member of the institutional staff member as a participant. In football the attendance restriction applies to institutional Football Bowl Subdivision and NCAA Football Championship Subdivision staff with football-specific responsibilities, with FBS and FCS-specific exceptions. The proposal is effective immediately.

6. **Proposal Nos. 2026-57 (Playing and Practice Seasons – Bowl Subdivision Football – Out-of-Season Activities and Preseason Practice Period) and 2026-59 (Playing and Practice Seasons – Championship Subdivision Football – Out-of-Season Activities and Preseason Practice Period).** The cabinet remanded Proposal Nos. 2026-57 and 2026-59 to the NCAA Division I Football Bowl Subdivision Oversight Committee and Football Championship Subdivision Oversight Committee, respectively, for further review. The cabinet charged the football oversight committees with review of the February 1 start date for noncontact skill instruction and out-of-season practice, and whether an institution's off-season start date should be tied to the conclusion of its previous season.

NCAA Division I Cabinet Policies
Required Student-Athlete Attendance for Legislative Action

Required Attendance of Student-Athlete Representatives for Legislative Action.

In order for legislative action to be taken by a Division I committee, including the NCAA Division I Board of Directors and Division I Cabinet, at least 50% of the student-athlete representatives on the committee must be in attendance. The following policies are intended to help the cabinet and other committees meet the minimum student-athlete attendance requirement for legislative action:

1. Student-Athlete Attendance Policy:

   a. If a student-athlete committee member misses two meetings without providing advance notice to NCAA staff liaisons, the student-athlete shall be removed from the committee and replaced by an identified alternate.
   b. Advance notice is considered to be five business days before the applicable meeting.
   c. After the first unexcused absence, NCAA staff will communicate a reminder on the attendance policy to the student-athlete committee member.
   d. If a student-athlete is removed from a committee, the applicable committee has the authority to determine the alternate who will replace the student-athlete committee member.

2. National Student-Athlete Advocacy Committee Members Alternate Process:

   - For committees with national SAAC members who compete in the applicable sport, national SAAC members will serve as alternates and attend oversight committee meetings if the primary student-athlete cannot attend.
     (1) For example, if a women's volleyball student-athlete cannot attend a meeting, a national SAAC member who participates in women's volleyball would serve as the alternate for that meeting.
     (2) Alternates should receive all meeting materials and possess the voting privileges as the primary student-athlete representative for that meeting.

3. Non-National SAAC Members Alternate Process:

   a. For committees that do not have a national SAAC member, a pool of preidentified alternate student-athletes will be established.
   b. Alternate student-athletes may be selected from:
      (1) Nominations received for the most recent year of student-athlete vacancies that were not selected as primary representatives.
      (2) Student-athletes serving on Division I student-athlete engagement groups (for football and basketball committees).
   c. The NCAA Student-Athlete Advocacy Team will maintain and update a roster of eligible alternates for each sport and committee.
   d. When a primary student-athlete representative is unable to attend, staff will first identify if a national SAAC member is available to serve as an alternate. If the SAAC members are unavailable or there is not a SAAC member to choose from, an alternate from the nominations received will be chosen.
   e. Alternates should receive all meeting materials and possess the same voting privileges as the primary student-athlete representative for that meeting.

4. Advance Attendance Confirmation.

   Committee staff liaisons should confirm student-athlete attendance prior to each meeting and identify alternate participants in advance whenever attendance concerns are known.

5. Quarterly Attendance Review.

   The NCAA Student-Athlete Advocacy Team will review student-athlete attendance data quarterly to identify trends and assess the effectiveness of alternate processes. If needed, the Student-Athlete Advocacy Team reserves the right to propose policy changes in conjunction with national SAAC.
