The NCAA Division I Committee for Legislative Relief, formerly the NCAA Division I Management Council Administrative Review Committee was created in 1993 as a response to the membership’s desire for more rules flexibility. This group consists of a committee of the NCAA Division I Council (formerly the NCAA Division I Legislative Council) that reviews the application of NCAA legislation in cases where the circumstances are extraordinary in nature [NCAA Division I Bylaw 5.4.1.3 (subcommittee for legislative relief of the council)]. In April 2008, as a result of the transition to the new Division I governance structure, the Administrative Review Committee was renamed the Committee for Legislative Relief. The equivalent waiver committees in Divisions II and III are the NCAA Division II Committee for Legislative Relief and the NCAA Division III Management Council Committee for Legislative Relief.

**Committee Authority.**

At its October 2003 meeting, the legislative council approved the committee’s recommendation affording the committee authority to waive the application of a rule when the circumstances of the case do not fit the intended consequences of the rule, even when the result could be a temporary rule change. The committee received endorsement from the legislative council for a shift in the philosophy of the legislative relief process affording the committee with the authority to waive legislation, prior to legislative council input, when circumstances arise that do not seem to be an intended consequence of legislation (i.e., the strict application of the rule based on its intent seems "overreaching" given the fact situation) even if granting such a waiver will essentially result in a temporary rule change in these limited instances.

Some potential guidelines for the committee when considering such an issue are below:

1. Minimal to no competitive or recruiting advantage will result from the waiver being granted.

2. Student-athletes collectively benefit from the granted waiver (as opposed to a select group of student-athletes benefiting at the cost of others).

3. The activity being prohibited from the rule appears to be an unintended consequence.

The committee believes that implementing any widespread, long-term changes should ultimately be accomplished through the legislative process. However, with the alteration of the timeline of the current legislative process and the less bureaucratic, more responsive philosophy, the committee believes that short-term relief may be provided to student-athletes when circumstances meet the proposed guidelines. Further, the committee would continue to review any adopted guidelines with the legislative council and, if the legislative council were not supportive, those legislative relief waiver cases decided in accordance with the guidelines would be archived.
NCAA Division I Bylaw 11.

Committee for Legislative Relief Information Standards for Bylaws 11.4.2, 11.4.3, 11.4.4, 13.8.3.2, 13.8.3.3 and 13.8.3.4. Individual Associated with a Prospective Student-Athlete — Football Bowl Subdivision, Men’s Basketball and Women’s Basketball.

During its November 2017 meeting, the committee approved information standards for waivers involving individual associated with a prospective student-athlete legislation in the sports of FBS and men’s basketball and individuals associated with a recruited prospective student-athlete legislation in the sport of women’s basketball. Specifically, an institution seeking relief of the legislation will be required to provide the following:

An institution seeking relief of the legislation will be required to provide the following:

1. Statement from the institution detailing the following:
   a. How the individual triggered the definition of an individual associated with a prospective student-athlete.
   b. Chronology of events related to the hire.
      (1) Date the institution posted job description for the noncoaching staff or strength and conditioning coach position;
      (2) Documentation that the institution followed its normal process for posting open positions;
      (3) Number of applicants who applied for the position;
      (4) Date of the individual associated with a prospective student-athlete’s interview;
      (5) Date of the institution’s offer of employment or intent to hire the individual associated with a prospective student-athlete;
      (6) Date the institution began recruiting the prospective student-athlete;
      (7) Date the prospective student-athlete committed to the institution;
      (8) Information regarding whether or not the position is an already established position or a new position;
(9) Events that led to the hire (e.g., previous relationship); and

(10) Statement from head coach regarding decision to hire individual associated with the prospective student-athlete.

2. Statement from individual associated with a prospective student-athlete detailing the following:
   a. Involvement in the prospective student-athlete’s recruitment at the institution and, if applicable, at the previous institution.
   b. Statement detailing the nature of the contact (e.g., type of contact, duration, was there a break in communication) throughout the relationship with the prospective student-athlete.
   c. An explanation regarding the contact made with the prospective student-athlete regarding the individual associated with a prospective student-athlete’s possible employment (e.g., was the individual associated with a prospective student-athlete aware of the institution’s recruitment of the prospective student-athlete?).

3. Statement from the prospective student-athlete detailing the following:
   a. Individual associated with a prospective student-athlete’s involvement in the prospective student-athlete’s recruitment at the institution and, if applicable, at the previous institution.
   b. The nature of the contact (e.g., type of contact, duration, was there a break) throughout the relationship with the individual associated with the prospective student-athlete?
   c. An explanation regarding the contact made with the individual associated with a prospective student-athlete regarding his or her possible employment (e.g., was the prospective student-athlete aware of the individual associated with a prospective student-athlete’s interest in a position at the institution?).
   d. Statement from prospective student-athlete explaining enrollment decision.

4. If the involved prospective student-athlete is transferring from an NCAA four-year institution, a statement from administration at the previous institution indicating its support for the transfer; and
5. After thorough review of the information presented, staff will review and consider the intent of the legislation and determine whether the facts presented provided the institution with a recruiting advantage.

Bylaw 12.

Delayed Enrollment Legislation [Bylaws 12.8.3.2, 12.8.3.2.1, 12.8.3.2.2, 12.8.3.2.2.2 and 12.8.3.5] – Guidelines, Information Standards and Directives.

1. Waivers Involving Military Service.
   a. Guidelines.

   During its September 2013 meeting, the committee revised the relief that can be provided for waivers involving Bylaws 12.8.3.2.1 (delayed enrollment – sports other than men’s ice hockey, skiing and tennis) and 12.8.3.2.2 (tennis) for student-athletes who became subject to the legislation during his or her participation in military service. This guideline does not apply to relief of Bylaws 12.8.3.2.2.2 (matriculation after 20th birthday – tennis) and 12.8.3.5 (participation after 21st birthday – men’s ice hockey and skiing).

   Specifically, the committee agreed relief should be provided for the season(s) of competition that a student-athlete became subject to under Bylaws 12.8.3.2.1 and 12.8.3.2.2-(a) and the year-in-residence requirement provided the student-athlete’s participation in organized competition occurred during the student-athlete’s participation in military service and the student-athlete was not designated as exceptional or elite-athlete status as defined by the student-athlete’s home country.

   The committee agreed in cases in which a student-athlete’s participation in organized competition occurred during the student-athlete’s participation in military service and the student-athlete was not exempt from military obligations to participate in the student-athlete’s sport or the student-athlete did not satisfy his or her military obligation by representing the country in athletics competition(s), relief should be provided for the season(s) of competition and the academic year-in-residence requirement. Additional mitigation or extenuating circumstances unrelated to the assertion of military service shall be reviewed on a case-by-case basis to determine if relief is warranted.

   This change is effective February 1, 2014, for any student-athlete initially enrolling as a full-time student at a Division I institution on, or after, August 1, 2013.
The committee noted staff could provide full relief (i.e., season(s) of competition and academic year of residence requirement) from the delayed enrollment legislation when the following information or circumstances are presented for cases involving military service:

1. Military service must be supported by objective documentation;

2. The service must occur immediately after the student-athlete’s completion of high school (as defined and required in the rule) and the student-athlete must enroll as a full-time student at a collegiate institution at his or her first opportunity once he or she is released from military service; and

3. The participation may only be of an amateur nature and there can be no amateurism violations as a result of the participation (e.g., prize money, contract, professional competition).

Specifically, the guidelines only apply to training and competition that occurs while a student-athlete is fulfilling his or her military service. No relief shall be provided if a student-athlete subjects himself or herself to the legislation either prior to enlistment in the military and/or after the student-athlete is discharged from military service (regardless of whether the student-athlete had an opportunity to enroll at the time of discharge). Thus, following graduation from high school, a student-athlete must begin his or her military service prior to becoming subject to the legislation and must cease all competition on being discharged from military service in order to receive protection under the guidelines.

In regard to a student-athlete who has received exceptional or elite-athlete status in the military, the committee agreed relief could only be provided for the season(s) of competition that a student-athlete became subject to under Bylaws 12.8.3.2.1 and 12.8.3.2.2-(a); however, no relief may be provided by the staff for the academic year in residence.

If the student-athlete was exempt from military obligations to participate in the student-athlete’s sport or the student-athlete satisfied his or her mandatory military obligation by representing the country in athletics competition(s) (i.e., exceptional or elite-athlete status as defined by the student-athlete’s home country), the committee agreed that relief could only be provided for the season(s) of competition that a student-athlete became subject to under Bylaws 12.8.3.2.1 and 12.8.3.2.2(a); however, no relief may be provided by the staff for the academic year in residence. Additional mitigation or extenuating circumstances
unrelated to the assertion of military service shall be reviewed on a case-by-case basis to determine if relief of the academic year in residence is warranted.

This change is effective February 1, 2014, for any student-athlete initially enrolling as a full-time student at a Division I institution on, or after, August 1, 2013.

The committee noted staff could consider partial relief (i.e., season(s) of competition) from the delayed enrollment legislation when the following information or circumstances are presented for cases involving elite-athlete status for student-athletes participating in military service:

1. Military service must be supported by objective documentation;
2. The service must occur immediately after the student-athlete’s completion of high school (as defined and required in the rule) and the student-athlete must enroll as a full-time student at a collegiate institution at his or her first opportunity once he or she is released from military service; and
3. The participation may only be of an amateur nature and there can be no amateurism violations as a result of the participation (e.g., prize money, contract, professional competition).

Specifically, the guidelines only apply to training and competition that occurs while a student-athlete is serving in the military. No relief shall be provided if a student-athlete subjects himself or herself to the legislation either prior to enlistment in the military and/or after the student-athlete is discharged from military service (regardless of whether the student-athlete had an opportunity to enroll at the time of discharge). Thus, following graduation from high school, a student-athlete must begin his or her military service prior to becoming subject to the legislation and must cease all competition on being discharged from military service in order to receive protection under the guidelines.

b. Information Standards.

a. Military service must be supported by objective documentation (e.g., service enlistment date, service discharge date, attendance report that includes all leave time taken by the student-athlete to practice, train and/or compete in his or her sport);

b. Date of high school graduation as determined by the NCAA Eligibility Center.  [NOTE: If the individual never received an amateurism
certification from the Eligibility Center, then the institution must
determine the date of high school graduation as defined and required in
Bylaws 12.8.3.2.1 and 12.8.3.2.2;

c. Certification that the individual’s participation since graduation from high
school was amateur in nature. There can be no amateurism violations as a
result of the individual’s participation (including during the one-year grace
period);

d. Documentation related to the amount of competition the individual
participated in during each year that the student-athlete was subject to the
legislation. This documentation must include the actual dates of
competition on which the individual competed as opposed to the dates of
the scheduled events in which the student-athlete competed;

e. Documentation that the individual immediately enrolled as a full-time
student at a collegiate institution at his or her first opportunity on being
discharged from military service. [NOTE: The guidelines specify no
relief will be provided if the student-athlete continues to compete after
being discharged from his or her military service and prior to initial
enrollment];

f. Documentation confirming whether the student-athlete did or did not
receive exceptional or elite-athlete status while enlisted in the military;

and

g. Additional documented mitigation (e.g., circumstances outside of the
individual’s or institution’s control), if any, related to why relief is
warranted from Bylaws 12.8.3.2.1 and 12.8.3.2.2.

2. **Bylaw 12.8.3.5 (participation after 21st birthday – men’s ice hockey and skiing).**

   - Directive.

At the October 2000 meeting, the committee issued a directive to deny requests to
waive Bylaw 12.8.3.5 in light of historical intent of the legislation and a defeated
legislative proposal to exempt competition associated with international military
service from the 21st birthday rule (even if the international military service
was mandatory). The staff published an article in the November 20, 2000, edition
of The NCAA News regarding the committee’s policy. The committee reaffirmed
its October 2000 directive regarding military service during its March 2010
meeting and noted that it applies to all situations under Bylaw 12.8.3.5, including
3. **Common Assertions for Relief.**

- Guideline.

  During its March 2010 meeting, the committee reviewed the most common assertions submitted as a basis for relief for waiver requests involving Bylaws 12.8.3.2.1 (delayed enrollment – sports other than men’s ice hockey, skiing and tennis), 12.8.3.2.2 (delayed enrollment – tennis), 12.8.3.2.2.2 (matriculation after 20th birthday – tennis) and 12.8.3.5 (participation after 21st birthday – men’s ice hockey and skiing). The committee noted that the most common assertions submitted as mitigation are as follows:

  1. The student-athlete participated in a minimal amount of competition or the type of competition was not of the caliber that should subject a student-athlete to the use of season(s) of competition;

  2. The student-athlete is an international student and/or did not have knowledge of the amateurism legislation, delayed enrollment legislation or NCAA rules in general prior to participating in competition resulting in the use of season(s) of competition;

  3. The institution discovers that the student-athlete is subject to the use of season(s) of competition after the student-athlete enrolled and began competing at the institution; and

  4. The student-athlete relied on misinformation from various NCAA coaching staff members or the applicant institution’s coaching staff during the recruitment process and/or was not informed of the legislation.

The committee agreed that while it will continue to review requests on a case-by-case basis, the assertions in and of themselves will not likely result in relief from the legislation without the demonstration of extenuating or extraordinary circumstances.

The committee noted the primary analysis for such waiver requests shall focus on the circumstances outside of the student-athlete’s control (e.g., specific event that necessitated the delay such as a financial hardship or the death of a family member) that necessitated the individual’s delayed collegiate enrollment. Specifically, the staff and committee will evaluate the duration of time that the
mitigation impacted the student-athlete’s ability to enroll (e.g., chronology of events), what circumstances have changed related to the specific event (e.g., how has situation improved or changed) and whether or not the student-athlete initially enrolled at his or her first opportunity after the mitigation was remedied.

**Bylaw 13.**

1. **Local Sports Clubs [Bylaws 13.11.2.4 and 13.11.2.4.1] – Information Standards.**

   During its October 2002 meeting, the committee approved information standards for institutions requesting to waive the local sports-club legislation.

   If an institution is seeking a waiver on behalf of a prospective student-athlete to allow participation in local sports clubs beyond the permissible 50-mile limitation, the following information must be submitted:

   (1) Documentation of other opportunities (if any) for clubs that exist within the 50-mile radius; or

   (2) Other opportunities outside the 50-mile radius without institutional involvement. If there are other club opportunities available to the prospective student-athlete within the 50-mile radius, the request will be denied unless extenuating circumstances are presented.

   If an institution is seeking a waiver on behalf of one of its coaches to participate in a local sports club that does not meet the legislation, the following information must be submitted:

   (1) Documentation of the extenuating circumstances that caused the waiver to be submitted; and

   (2) An indication of the time frame of the coach’s continued involvement with the club team. If the institution is seeking a waiver to permit the coach to continue with a club indefinitely or for a substantial amount of time, the request will be denied.

   Lastly, in all local sports-club requests, the committee will require documentation from the institution indicating whether the institution is recruiting the involved prospective student-athlete and whether it is willing to abstain from recruiting the prospective student-athlete if the waiver is granted.
2. **Summer Basketball Leagues [Bylaws 13.18 and 13.18.1] – Guideline.**

At the January 2003 management council meeting, the legislation was amended to require that participants on nonscholastic teams be legal residents of the state in which the team is located or a geographically adjoining state and not more than a total of three prospective student-athletes from adjoining states may participate on any one nonscholastic team.

During its April 2003 meeting, in preparation for the possibility of future Committee for Legislative Relief requests seeking to waive this legislation, the committee has consulted with the chair of the NCAA Division I Men’s Basketball Issues Committee and approved the following guideline: relief from the strict application of the legislation should be granted only in situations in which no permissible team exists that will allow a prospective student-athlete the opportunity to participate in any NCAA-certified event.

**Bylaw 14.**

1. **Initial-Eligibility Issues [Bylaw 14.3] – Guidelines.**

   - During its October 2000 meeting, the committee reviewed situations where institutions were seeking an additional season of competition or attempting to change a student-athlete’s certification as a partial qualifier or a nonqualifier. The committee determined that since another body exists to address initial-eligibility violations, the committee should not review these cases. The committee determined that it would no longer review requests to waive Bylaw 14.3 with the exception of Bylaw 14.3.4, inasmuch as there is no body in place to review the transfer aspect of the initial-eligibility legislation.

2. **Guidelines for Waivers Involving Bylaws 14.3.2.3 (Outside Competition – Nonqualifier) and 17.31.1 (Outside Competition – Sports Other Than Basketball).**

During its March 2014 meeting, the committee agreed that relief may be provided for waivers involving Bylaws 14.3.2.3 and 17.31.1 for nonqualifiers to practice or compete on an outside team during the academic year of residence.

Specifically, the committee agreed relief could only be provided when the following information or circumstances are presented:

a. The competition must be elite-level competition (e.g., national team);

b. The competition occurs during a vacation period between terms and **during a holiday or official vacation period as listed on the institution’s academic**
calendar; the student-athlete shall not miss class time or other academic support (e.g., tutoring);

    c. The competition is limited to one event during the first regular academic term and a maximum of two events per year;

    d. The student-athlete must be meeting all NCAA and conference progress-toward-degree requirements and be in good academic standing as defined by the institution; and

    e. The waiver request must include a letter of support from the faculty athletics representative.

The committee noted that waivers of this legislation will be reviewed on a case-by-case basis. (Adopted March 2014).

During its April 2018 meeting, the Council approved an amendment to the Committee for Legislative Relief polices to specify that immediate eligibility may be provided in certain situations. For a waiver to be granted, an institution must demonstrate that the student-athlete’s transfer is due to documented extenuating, extraordinary and mitigating circumstances outside of the student-athlete’s control that directly impacts the health, safety or well-being of the student-athlete. Further, the student-athlete’s overall academic record (e.g., meeting progress-toward-degree requirements, likelihood of graduation) and the previous institution’s position on the request will be evaluated.

This change is effective for all undergraduate transfers seeking immediate eligibility during the 2018-19 academic year and thereafter.

The committee agreed that while it will continue to review requests on a case-by-case basis, the most common assertions submitted as mitigating circumstances are outlined in the remainder of this section.

1. **Assertions of No Participation Opportunity at Previous Institution.**

   During its May 2019 meeting, the committee discussed the relief that can be provided for waivers involving Bylaw 14.5 (transfer regulations) in which an institution asserts that the student-athlete was no longer given an opportunity to participate at his or her previous institution for reasons outside the student-athlete’s control.
a. Guidelines.

The committee approved the following guidelines:

(1) In cases in which a student-athlete was no longer given an opportunity to participate by the previous institution for reasons outside the student-athlete’s control, relief should be provided if the student-athlete was otherwise eligible for use of the one-time transfer exception but could not use the exception due to a previous transfer (e.g., 4-4-4 transfer) or the student-athlete participates in a sport that is not eligible for the one-time transfer exception per Bylaw 14.5.5.2.10-(a) (one-time transfer exception).

(2) If applicant institution is unable to document that the student-athlete was no longer given an opportunity to participate by his or her previous institution for reasons outside the student-athlete’s control or if the student-athlete was dismissed from the previous institution’s team, which led to the student-athlete’s decision to transfer, the case should be denied.

b. Information Standards.

The committee adopted the following information standards:

(1) A written statement from the previous institution’s director of athletics indicating the following:

(a) Whether the student-athlete would have had an opportunity to return to the previous institution’s team and if not, was the opportunity removed for reasons outside the student-athlete’s control;

(b) Whether the student-athlete was dismissed from the team for any reason and, if so, the date of the dismissal;

(c) Whether the student-athlete was athletically eligible and in good standing with the team at the time of departure from the institution; and

(d) Detailing the reasons why the student-athlete indicated he or she is transferring from the previous institution.
Note: If the previous institution fails to provide a response from the director of athletics to the required information standards, the waiver will fall under the committee’s 10-day policy.

(2) A written statement from the applicant institution indicating that the student-athlete is in good academic standing and meets all progress-toward-degree requirements at applicant institution.

2. **Assertions of Egregious Behavior.**

During its February 2019 meeting, the committee discussed the relief that can be provided for waivers involving Bylaw 14.5 (transfer regulations) in which an institution asserts that the student-athlete was victim of egregious behavior by a student-athlete or staff member while enrolled at the previous institution.

a. Guidelines.

The committee approved the following guidelines regarding assertions of egregious behavior:

(1) In cases where the student-athlete was a victim of objective, documented egregious behavior (for example, physical assault or abuse, sexually inappropriate behavior, racial abuse, religious discrimination, questioning of sexuality) by a staff member or student at the previous institution, staff may grant immediate eligibility.

(2) The definition of egregious behavior is not limited to the examples above, and staff should use appropriate discretion in the analysis of the facts.

(3) In cases where the applicant institution cannot document that the student-athlete was the victim of egregious behavior by a staff member or a student at the previous institution, staff should review on a case-by-case basis.

b. Information Standards.

The committee adopted the following information standards:

(1) Objective documentation of the egregious behavior that directly impacted the health, safety or well-being of the student-athlete.
(2) A written statement from the previous institution’s director of athletics detailing the reasons why the student-athlete indicated he or she is transferring from the previous institution.

(3) A written statement from the applicant institution indicating that the student-athlete is in good academic standing and meets all progress-toward-degree requirements at applicant institution.

3. **Assertions of Student-Athlete Injury or Illness.**

   a. **Guidelines.**

   During its February 2019 meeting, the committee discussed the relief that can be provided for waivers involving Bylaw 14.5 (transfer regulations) in which an institution asserts that an injury or illness to the student-athlete necessitated the student-athlete’s transfer to applicant institution.

   The committee approved the following guidelines regarding assertions of injury or illness to the student-athlete:

   (1) If the applicant institution is unable to provide contemporaneous medical documentation to substantiate the injury or illness to the student-athlete, the case should be denied.

   (2) If the applicant institution provides documentation substantiating an injury or illness, but the injury or illness is ancillary to the facts and thus does not relate to the need to transfer, the case should be denied.

   (3) If the applicant institution provides contemporaneous medical documentation substantiating that an injury or illness to the student-athlete necessitated the transfer to the applicant institution, the case should be granted.

   (4) The committee reviewed the common circumstances submitted for such waiver requests and instructed the staff to continue reviewing such requests on a case-by-case basis. In addition, the committee noted immediate eligibility should be considered when the following circumstances are appropriately documented:

   (a) **Nature of injury or illness.** Staff should consider relief of the legislation for circumstances involving a medically documented
debilitating injury or illness (including mental illness) to a student-athlete that necessitates the student-athlete’s transfer;

(b) **Chronology of events.** Staff should consider relief of the legislation when the chronology of events supports that the student-athlete transferred because of the injury or illness. The student-athlete must transfer within or immediately after the academic year during which the injury or illness occurred, or significantly worsened; and

(c) **Distance from student-athlete’s support system.** Staff should consider relief of the legislation when the student-athlete transfers to an institution within a 100-mile radius from the student-athlete’s home or support system due to the injury or illness. Additionally, staff may consider other relevant factors regarding the distance from applicant institution to student-athlete’s support system (e.g. student-athlete transferred to the closest institution that would provide an opportunity to participate).

b. **Information Standards.**

The committee adopted the following standards for situations in which a waiver of legislation is requested and the mitigation provided by the institution involves an injury or illness to the student-athlete:

(1) A written statement from the previous institution’s director of athletics indicating the following:

(a) Whether the student-athlete would have had an opportunity to return to the previous institution’s team;

(b) Whether the student-athlete was dismissed from the team for any reason and, if so, the date of the dismissal;

(c) Whether the student-athlete was athletically eligible and in good standing with the team at the time of departure from the institution; and

(d) Detailing the reasons why the student-athlete indicated he or she is transferring from the previous institution.

(2) Applicant institution must submit contemporaneous medical documentation from the medical professional who diagnosed the
student-athlete’s condition demonstrating the student-athlete’s condition is debilitating and that the student-athlete was receiving medical care and/or treatment at the previous institution for the injury or illness;

(3) Applicant institution must provide a statement from the medical professional who treated the student-athlete while enrolled at the previous institution clearly demonstrating the reasons why the student-athlete’s injury or illness necessitates the transfer to applicant institution;

(4) Applicant institution must submit a letter from the student-athlete explaining the need for relief from the legislation;

(5) Applicant institution must submit a statement demonstrating the steps that have been taken (or will be taken upon the student-athlete’s enrollment) to treat the student-athlete’s injury or illness at the institution; and

(6) Applicant institution must submit a written statement indicating the student-athlete is in good academic standing and meets all progress-toward-degree requirements at the institution.

4. **Assertons of Family Member Injury or Illness.**

a. **Guidelines.**

During its February 2019 meeting, the committee discussed the relief that can be provided for waivers involving Bylaw 14.5 (transfer regulations) in which an institution asserts that an injury or illness to an immediate family member necessitated the student-athlete’s transfer to applicant institution.

The committee approved the following guidelines regarding assertions of injury or illness of an immediate family member:

(1) If the institution is unable to provide contemporaneous medical documentation to substantiate the injury or illness, to an immediate family member the case should be denied.

(2) If the institution provides documentation substantiating an injury or illness to the immediate family member, but the injury or illness is ancillary to the facts and thus does not relate to the need to transfer, the case should be denied.
(3) If the institution provides contemporaneous medical documentation substantiating that an injury or illness to a member of the student-athlete’s immediate family necessitated the transfer to the applicant institution, the case should be granted.

(4) The committee reviewed the common circumstances submitted for such waiver requests and instructed the staff to continue reviewing such requests on a case-by-case basis. In addition, the committee noted immediate eligibility should be considered when the following circumstances are appropriately documented:

(a) **Nature of injury or illness.** Staff should consider relief of the legislation for circumstances involving a medically documented debilitating injury or illness (including mental illness) to a member of the student-athlete’s immediate family (e.g., mother, father, sibling, child, legal guardian) creating dependency on the student-athlete;

(b) **Student-athlete’s responsibilities related to the care of the family member.** Staff should consider relief of the legislation when the student-athlete can demonstrate with objective documentation that he or she is providing regular, ongoing, caregiving responsibilities and/or assistance to the individual(s) who is injured or ill. Additionally, the applicant institution must be within a 100-mile radius of the student-athlete’s injured or ill family member’s home;

(c) **Chronology of events.** Staff should consider relief of the legislation when the chronology of events supports the necessity for the student-athlete to transfer. The student-athlete must transfer within or immediately after the academic year once becoming aware of the injured or ill family member’s diagnosis, change in medical condition or family circumstances; and

(d) **Terminal illnesses.** The committee has instructed staff to review requests, on a case-by-case basis, involving an injury or illness to a family member that has been diagnosed and documented as terminal (i.e., individual has less than a year to live) but does not meet the requirements of the previous guidelines.
(b) Information Standards.

The committee adopted the following standards for situations in which a waiver of legislation is requested and the mitigation provided by the institution involves an injury or illness to a student-athlete’s immediate family member:

(1) A written statement from the previous institution’s director of athletics indicating the following:

   (a) Whether the student-athlete would have had an opportunity to return to the previous institution’s team;

   (b) Whether the student-athlete was dismissed from the team for any reason and, if so, the date of the dismissal;

   (c) Whether the student-athlete was athletically eligible and in good standing with the team at the time of departure from the institution; and

   (d) Detailing the reasons why the student-athlete indicated he or she is transferring from the previous institution.

(2) Applicant institution must submit contemporaneous medical documentation from the medical professional who diagnosed the immediate family member’s condition demonstrating the condition is debilitating;

(3) Applicant institution must provide a statement and/or documentation from the treating medical professional clearly demonstrating the reasons why the immediate family member’s injury or illness necessitates the student-athlete’s transfer to applicant institution;

(4) Applicant institution must submit a letter from the student-athlete explaining the need for relief from the legislation;

(5) Applicant institution must submit a treatment plan detailing the student-athlete’s caregiving responsibilities;

(6) Applicant institution must submit a statement from the athletics director and faculty athletics representative confirming the student-athlete will be permitted to depart from the team (e.g., miss practice, competition and/or athletically related activities) to fulfill care responsibilities for the injured
or ill family member and ensuring the coaching staff does not oppose the student-athlete’s departure from the team; and

(7) Applicant institution must submit a written statement indicating the student-athlete is in good academic standing and meets all progress-toward-degree requirements at the institution.

5. **Assertions of Financial Hardship.**

   a. **Guidelines.**

   During its February 2019 meeting, the committee reviewed case precedent and affirmed information standards for assertions of financial hardship and noted that staff should deny requests involving a transfer for financial reasons in which the documentation is not provided to meet the information standards. Further, the committee indicated that the information standards should require the financial hardship to be a result of a specific incident. The committee noted that when a student-athlete’s transfer is the result of a specific event causing a financial hardship and supporting objective documentation is provided, immediate eligibility may be considered.

   b. **Information Standards.**

   During its February 2019 meeting, the committee revised the information standards for situations where the institution requests a waiver when the student-athlete’s previous transfer was necessitated by financial considerations due to the parents’ financial difficulties:

   (1) Applicant institution must submit documentation of the cause of the financial hardship (e.g., bankruptcy, layoff, illness, etc.).

   (2) Applicant institution must demonstrate that the financial difficulty has a direct link to warranting relief from the legislation (e.g., student-athlete is forced to transfer to work and support family).

   (3) Applicant institution must submit a detailed chronology of events related to the financial hardship. For example (this is not an exhaustive list):

   (a) Date when hardship onset.

   (b) Date student-athlete became aware of the hardship.
(c) Date student-athlete initiated transfer process from original institution (e.g., requested permission to contact).

(d) What circumstances, if any, have changed related to the financial hardship?

(4) Cost of attendance at previous institution and applicant institution including any financial aid packages received at both institutions.

(5) Actions, if any, student-athlete took to remain at the previous institution (e.g., update Free Application for Federal Student Aid, apply for additional student aid, appeal cancellation or reduction of institutional or athletics aid).

(6) Applicant institution must provide documentation demonstrating student-athlete’s total financial aid situation at the previous institution and applicant institution (e.g., loans student-athlete was eligible for, loans student-athlete accepted, amount of athletics aid, other financial aid).

(7) Applicant institution must detail the contributions student-athlete, student-athlete’s parent(s) or legal guardian(s) paid toward student-athlete’s education at the previous institution and applicant institution, if any.

(8) Applicant institution must provide a statement detailing the student-athlete’s responsibilities, if any, related to providing financial support for his or her family.

(9) Applicant institution must provide a statement from previous institution detailing the reasons the student-athlete indicated why he or she is transferring from the institution.

(10) Student-athlete’s academic status at the time of departure from the previous institution (e.g., good academic standing and progress-toward-degree requirements) and anticipated graduation date from applicant institution.

(11) Other factors influencing the student-athlete’s decision to transfer (e.g., playing time, coaching change, pursuit of different academic degree program).
6. **Transfer-Residency Requirement Due to Institutional Denial of Transfer Release.**

During its February 2019 meeting, the committee discussed the relief that can be provided for waivers involving Bylaw 14.5 (transfer regulations) in which an NCAA or NAIA member institution has denied a one-time transfer release to a student-athlete. The committee did not believe it should overturn these types of decisions and recommended that the staff deny these cases during the staff’s first review of the case, absent any other extenuating circumstances.

7. **Transfers of Male Student-Athletes Due to Notice of Pregnancy/Birth of his Child.**

   - **Guidelines.**

   During its February 2019 meeting, the committee discussed the relief that can be provided for waivers involving Bylaw 14.5 (transfer regulations) in which a male student-athlete transfers from one four-year college to another four-year college due to the pregnancy or birth of a child.

   The committee approved the following guidelines regarding assertions of pregnancy or birth of a child:

   (1) A male student-athlete transfers from one four-year institution to a second four-year institution at the first opportunity after learning of the mother’s pregnancy or transfers at the first opportunity after the birth of the child;

   (2) The male student-athlete will share in the day-to-day responsibilities of caring for the child. Applicant institution must submit a treatment plan detailing the student-athlete’s caregiving responsibilities; and

   (3) Applicant institution is the closest institution to the male student-athlete’s child to offer a participation opportunity.

8. **Assertions of Death of an Immediate Family Member.**

   a. **Guidelines.**

   During its February 2019 meeting, the committee discussed the relief that can be provided for waivers involving Bylaw 14.5 (transfer regulations) in which an institution asserts that the death of an immediate family member necessitated the student-athlete’s transfer to applicant institution.
The committee approved the following guidelines regarding assertions of death of an immediate family member:

1. If applicant institution is unable to provide documentation to substantiate the death of an immediate family member, the case should be denied.

2. If applicant institution provides documentation substantiating the death of an immediate family member, but the death is ancillary to the facts and, thus, does not relate to the need to transfer, the case should be denied.

3. If applicant institution provides documentation substantiating that the death of an immediate family member necessitated the transfer, the case should be granted when the following circumstances are appropriately documented:
   
   a. **Immediate family member.** Staff should consider relief of the legislation for circumstances involving the death of an immediate family member (e.g., mother, father, sibling, child, legal guardian);
   
   b. **Student-athlete’s support system.** Staff should consider relief of the legislation when the student-athlete transfers to an institution that is significantly closer to the student-athlete’s support system and reasonably allows the student-athlete to provide and/or receive the emotional and/or financial support necessary after the death of an immediate family member; and
   
   c. **Chronology of events.** Staff should consider relief of the legislation when the chronology of events supports the necessity for the student-athlete to transfer. The student-athlete must transfer within or immediately after the academic year of the immediate family member’s death.

b. **Information Standards.**

The committee adopted the following standards for situations in which a waiver of legislation is requested and the mitigation provided by the institution involves the death of an immediate family member:

1. Applicant institution must submit documentation of the immediate family member’s death (e.g., death certificate, obituary);
(2) Applicant institution must submit a letter from the student-athlete explaining how the immediate family member’s death necessitated the student-athlete’s transfer and why the student-athlete needs to be closer to his or her support system because of the death of an immediate family member; and

(3) For instances involving the death of an extended family member (e.g. grandparent, aunt, uncle, cousin), applicant institution must submit:
   a. Documentation demonstrating why the extended family member should be considered an immediate family member;
   b. A letter from the student-athlete explaining how the extended family member’s death necessitated the student-athlete’s transfer and why the student-athlete needs to be closer to his or her support system because of the death of the extended family member; and
   c. Documentation explaining any other mitigating circumstances that support relief of the legislation.

9. **Assertions of Academic and Athletics Reasons.**

   During its February 2019 meeting, the committee discussed the relief that can be provided for waivers involving Bylaw 14.5 (transfer regulations) in which an institution asserts that academic or athletics reasons necessitated the student-athlete’s transfer to applicant institution. The committee recommended that the staff deny cases involving transfers for athletics reasons during the staff’s first review of the case, absent any other extenuating circumstances. Further, the committee directed the staff to review requests asserting academic reasons on a case-by-case basis for extenuating circumstances which may warrant relief from the transfer legislation.

   a. **Information Standards.**

      The committee adopted the following information standards for transfers for academic reasons:

      (1) The institution to which the student-athlete is transferring will be required to acquire a letter noting that it offers the desired program and that the student-athlete has completed the prerequisite courses for admission into the program.
(2) Provide a statement from the institution noting that the student-athlete has the necessary credit hours to meet progress-toward-degree requirements at the institution.

(3) A copy of the student-athlete’s academic transcripts from all previous institutions attended.

(4) If transferring due to academic discontinuation and the student-athlete does not meet the criteria of the one-time transfer exception, the institution shall include a letter from the dean or appropriate academic authority at the original institution documenting that the program has been discontinued.

b. Directive.

The committee directed the staff to deny cases under the following asserted academic reasons:

(1) Student-athlete transfers because the degree program does not meet his or her academic expectations.

(2) The institution or the student-athlete is unable to provide documentation supporting the transfer for academic reasons.

(3) The student-athlete transferred for academic reasons on more than one occasion.

(4) The student-athlete transferred to change majors.

10. **Assertions of Misinformation.**

a. Guidelines.

During its July 2004 and April 2008 meetings, the committee reviewed case precedent and affirmed the continued application of the October 1999 information standards in cases involving assertions of misinformation. The committee also affirmed that the staff should continue to include consideration of other factors including student-athlete well-being, competitive advantage, fairness, academic record, the intent of the rule and additional circumstances outside the control of the student-athlete and/or institution.
The committee reviewed whether relief is appropriate for circumstances when the sources of academic misadvisement are coaching staff members from a two-year institution, an NCAA institution or an NAIA institution. The committee determined that it would review these circumstances on a case-by-case basis but were inclined to deny. The committee also reviewed whether a student-athlete’s initial-eligibility status should be taken into consideration for 2-4 transfers and determined that it would review requests on a case-by-case basis but did acknowledge the difference between nonqualifiers and qualifiers.

The committee approved the following guidelines regarding assertions of misinformation:

1. In cases where the misinformation provided by the previous four-year institution led to the student-athlete being ineligible and applicant institution can document that the student-athlete would have been eligible had he or she attended applicant institution directly, relief should be provided (e.g., 2-4-4 transfer).

2. In cases where the student-athlete relied in good faith on the academic misinformation and had correct information been provided, it was determined that the student-athlete could have met the necessary transfer requirements, and, but for the misinformation, he or she could have been eligible, relief should be provided. In situations involving misinformation, if the student-athlete is not eligible at any Division I institution, regardless of the misinformation received, the request should be denied provided the request for relief is solely based on the misinformation.

3. In cases where the misinformation cannot be documented and absent other extenuating circumstances, the committee directed the staff to deny these cases.

b. Information Standards.

The staff presented a report on cases involving misinformation/inaccurate advice from institutional administrators and proposed new information standards for these types of waivers. The committee determined that if an institution is claiming misinformation as a mitigating circumstance, the following must be included in the request:

1. The institution must submit a written statement of explanation from the person or persons responsible for or accused of providing erroneous
information, which summarizes the information given to the student-athlete.

(2) If available, contemporaneous documentation demonstrating the misadvice (e.g., notes, phone logs, etc.).

(3) Written statement from the student-athlete in question demonstrating whether the student-athlete, in good faith, relied on the erroneous information to his or her detriment. The statement should also include a chronology of events.

The committee required that if the applicant institution benefits (waiver request is granted) because of misinformation, a lack of information or institutional error in which a student-athlete(s) is detrimentally impacted by the actions of institutional personnel, then the chancellor or president of the applicant institution will be notified by letter from the staff detailing the chronology of the institution’s/individual’s actions. A member of the staff or committee may call an institution’s chancellor or president to provide notice regarding the institution’s plans to prevent future instances of misinformation/error when an institution has submitted multiple waiver requests involving misinformation, a lack of information or institutional error that has detrimentally impacted a student-athlete.

11. **Assertions Involving Diagnosed Education-Impacting Disabilities – Information Standards and Guidelines.**

   a. Guidelines for assertions involving diagnosed education-impacting disabilities.

   During its October 2000 meeting, the staff provided the committee with an overview of cases processed where an education-impacting disability was included in the request. The staff informed the committee that it has reviewed two main types of cases, one where the education-impacting disability resulted in the need for relief and another where the education-impacting disability is not a direct factor in the request for relief. The committee adopted information standards for cases in which an education-impacting disability necessitates the need for a waiver. In its March 2014 meeting, the committee updated the information standards for these types of waivers.

   b. Information standards for assertions involving diagnosed education-impacting disabilities.

   The committee adopted the following information standards for cases in which an education-impacting disability necessitates the need for a waiver:
(1) The institution must submit a current, signed documentation of the diagnosis (including test data) and/or recommendations from the treating professional (e.g., medical doctor, clinical psychologist, other qualified individual). If specific circumstances of the case indicate that this requirement is unnecessary, a prior diagnosis may be acceptable. (NOTE: The staff or committee reserves the right to request a second opinion or diagnosis).

(2) If appropriate, the applicant institution should provide contemporaneous documentation from an individual who is qualified and licensed to diagnose and treat (e.g., psychiatrist, psychologist) the student-athlete with a mental health disorder (e.g., depression, anxiety, post-traumatic stress disorder).

(3) The institution must submit a written statement from the student-athlete that addresses the impact of the diagnosed disability on his or her academic performance and its relation to the desired request for relief.

(4) If the student-athlete has voluntarily disclosed to the office of disability services, the institution must provide documentation of the specific accommodations or academic adjustments granted to provide access to the student-athlete. This summary must include accommodations provided by the institution with respect to the student-athlete’s disability, as well as academic and other support services provided, and any institutional accommodations related to adjustments of minimum performance requirements. If the institution offers any accommodations with respect to the student-athlete’s athletics responsibilities, those should be indicated as well.

(5) In a transfer situation, the applicant institution should provide documentation demonstrating that the student-athlete with an education-impacting disability needed support services and/or treatment that was unavailable and/or inadequate at the previous institution but available at the applicant institution.

During its September 2014 meeting, the committee transferred waiver authority of all Bylaw 14.5.5.4 waivers to the progress-toward-degree waivers committee. The committee determined that because another body exists to address eligibility for institutional financial aid, the committee would no longer review these cases.
16. **Graduate Student Transfers [Bylaw 14.6.1] – Information Standards.**

During its March 2011 meeting, the committee adopted the following information standards for waivers of Bylaw 14.6.1 for those student-athletes transferring for the 2007-08 academic year or thereafter:

a. A letter from previous institution (e.g., athletics director, faculty athletics representative, president) stating it does not object to the student-athlete being immediately eligible.

b. Documentation from the appropriate academic authority that the student-athlete has been accepted into a specific graduate program at the institution he or she wishes to transfer to.

c. Documentation indicating whether the specific graduate degree is available at the previous institution.

d. A statement from the student-athlete detailing the reasons for the transfer.

e. A statement related to the student-athlete’s status on the team at the previous institution (e.g., dismissed from the team for rules violation, disciplinary suspension).

**Bylaw 15.**

1. **Retroactive Financial Aid [Bylaw 15.3.1.3] – Guideline.**

During its October 2002 meeting, the committee approved the following guidelines for the staff to consider in evaluating retroactive financial aid cases: (1) Prior to the student-athlete commencing the academic work, it was agreed on by the student-athlete and the coaching staff, financial aid officer or other involved institutional administrator that the student-athlete would receive financial aid for the credit hours; and (2) Except for an administrative error or lack of communication, the student-athlete would have received the aid.

2. **Period of Award (One-Year Period) and Assertions Involving Misinformation or Misapplication of the Legislation [Bylaw 15.3.3.1] – Guideline.**

During its March 2010 meeting, the committee reviewed case precedent and determined that cases involving assertions of misinformation or a lack of information from institutional personnel (e.g., compliance, financial aid office, coaching staff member) for waivers of Bylaw 15.3.3.1 would be analyzed on a case-by-case basis; however, the committee is inclined to deny.
Bylaw 17.

1. **Maximum Contest Limitations in the Sport of Basketball [NCAA Division I Bylaw 17.3.5.1] – Information Standards and Guidelines.**

   During its January 2019 meeting, the Committee for Legislative Relief agreed to develop guidelines and information standards for waivers of the maximum contest limits in the sport of basketball. For a waiver to be granted, an institution must demonstrate the requested relief is due to documented mitigating circumstances outside of the institution’s control and directly impacts the institution’s basketball team. If an institution fails to document unique, mitigating circumstances outside of the institution’s control, the waiver should be denied.

   The Committee for Legislative Relief agreed that while it will continue to review requests on a case-by-case basis, the most common assertions submitted as mitigating circumstances are outlined in the remainder of this section.

2. ** Assertions of Institutional Error Due to Misinformation.**

   a. **Guidelines.**

      During its January 2019 meeting, the Committee for Legislative Relief reviewed case precedent and developed guidelines and information standards for assertions of an institutional error as the basis for relief of the maximum contest limits in the sport of basketball. The Committee for Legislative Relief also approved the following guidelines:

      (1) In cases where the institutional error led to the institution entering into a contract to participate in a contest that would cause the institution to exceed the maximum contest limits and applicant institution documented that it relied on misinformation when entering into the contract, relief may be provided with the conditions that the waiver be approved on a one-time basis and future waivers may be denied and that the team reduce its maximum contest limit by one the following academic year. Additionally, the institution’s president/chancellor may receive a letter detailing the institutional error.

      (2) If the institution provides documentation demonstrating institutional error but the institution is not at its maximum contest limits, the case should be denied.

      (3) If the institution is unable to provide documentation demonstrating institutional error, the case should be denied.
b. Information Standards.

The Committee for Legislative Relief determined that if an institution asserts institutional error as a mitigating circumstance for relief of the maximum contest limit, the following must be included in the request:

(1) A written statement of explanation from the person or persons responsible for or accused of providing erroneous information, which summarizes the information given to the individual(s) responsible for basketball scheduling and game contracts;

(2) Contemporaneous documentation demonstrating the misadvice (e.g., notes, approval of game contracts, etc.);

(3) A statement from the compliance staff detailing the chronology of events and education provided to individual(s) responsible for basketball scheduling and game contracts including information regarding the institution’s knowledge of the multiple-team event educational column and why the compliance staff was not involved prior to the individual(s) signing the contract for the institution’s basketball team to participate in the multiple-team event;

(4) A statement from the individual(s) responsible for signing a game contract demonstrating whether the individual(s), in good faith, relied on the erroneous information to the institution’s detriment; and

(5) A statement of support for the waiver from the institution’s athletics director.

a. Guidelines.

During its January 2019 meeting, the Committee for Legislative Relief reviewed case precedent and developed information standards for assertions of financial hardship. The Committee for Legislative Relief indicated that the information standards should require the financial hardship to be a result of an event operator error or the cancellation of a multiple-team event. The Committee for Legislative Relief also approved the following guidelines:

(1) In cases in which the institution is seeking to play an additional regular season contest to replace a multiple-team event contest lost due to the multiple-team event being cancelled or an event operator failing to
secure an opponent to play the contest guaranteed in the multiple-team event contract and supporting objective documentation is provided demonstrating a financial hardship for the institution, relief may be provided; and

(2) If the institution is unable to provide documentation demonstrating a financial hardship, the case should be denied.

b. Information Standards.

During its January 2019 meeting, the Committee for Legislative Relief developed information standards for situations where the institution requests a waiver to play an additional regular season contest when the waiver is necessitated by financial considerations due to an event operator error or the cancellation of a multiple-team event:

(1) A copy of the institution’s qualifying regular-season multiple-team event contract that includes language guaranteeing the team the contest in the event;

(2) A statement from the event operator detailing the failure to secure the contest guaranteed in the institution’s multiple-team event contract or the cancellation of the multiple-team event;

(3) A statement from the event operator detailing whether or not the event operator has failed to secure all games guaranteed to any institution pursuant to the institution’s multiple-team event contract in the past.

(4) A statement describing the steps taken by the event organizer and the institution to secure an opponent for the institution’s contest in the event;

(5) A statement from the institution detailing the estimated financial hardship associated with not participating in the contest in the event (e.g., estimated revenue, game guarantee);

(6) A statement from the institution detailing the steps taken by the institution to vet the contractual obligations prior to submission of the waiver (e.g., steps taken to try and recover the financial hardship, pursuing legal action with the event operator for a potential breach of contract); and

(7) A statement of support for the waiver from the institution’s athletics director.
4. **Assertions Involving Two Teams from the Same Conference Participating in the Same Multiple-Team Event.**

During its January 2019 meeting, the Committee for Legislative Relief developed information standards for situations in which two institutions from the same conference seek to participate in the same multiple-team event due to conference realignment:

a. A copy of each institution’s qualifying regular-season multiple-team event contract;

b. A statement describing the steps taken by the institutions to secure another qualifying multiple-team event to participate in;

c. A statement from the institutions detailing the estimated financial hardship associated with not participating in the multiple-team event (e.g., financial penalty, estimated revenue, game guarantee);

d. A statement from the conference indicating the date of the institution’s official acceptance into the new conference; and

e. A statement of support for the waiver from each institution’s athletics director.

5. **Basketball – Exhibition Games to Raise Funds for Catastrophic Events.**

- **Guidelines.**
  
  During its May 24, 2018, meeting, the NCAA Division I Committee for Legislative Relief approved a recommendation issued by the NCAA Division I Men’s and Women’s Basketball Oversight Committees to permit an institution to conduct one of its two permissible exhibition games in the sport of basketball against a Division I institution to raise funds for relief efforts for catastrophic events, as defined by the Federal Emergency Management Agency, provided the following guidelines are met:

a. Exhibition game must occur prior to the first permissible contest date;

b. Exhibition game may occur at any location, other than a prospective student-athlete’s educational institution or a facility that is regularly used by prospective student-athletes for practice or competition;

c. No relief provided of time demands legislation (e.g., required day off, return time of 5 a.m. on day following competition);
d. All net proceeds from exhibition game must go to a 501(c)3 to support humanitarian efforts for the catastrophic event;

e. The catastrophic event must have occurred after the first contest date of the previous basketball season; and

f. Institutions must report back to the NCAA the amount of money raised from the exhibition game and the name of the 501(c)(3) within 30 days following the date of the exhibition game.

The Committee for Legislative Relief noted waivers to permit an institution to participate in an additional exhibition game or scrimmage in the sport of basketball will be denied and previously signed contracts will not be considered mitigating circumstances.

Men’s Lacrosse: Minto Cup and Mann Cup. During its October 2006 meeting, the committee determined that based on the extended history of the Canadian Minto Cup and Mann Cup (since 1901), the small number of student-athletes participating each year (four to six) and the amateur nature of the competition, relief via the waiver process could be provided as long as the student-athletes are missing no more than two days (i.e., 48 hours) of class and/or campus time (including weekends).

The committee determined that minimizing the amount of missed class time is consistent with the intent of the legislation and the overall principle that student-athletes should miss minimal class and/or campus time due to outside competition occurring during the regular academic year.
