

**REPORT OF THE
NCAA DIVISION I LEGISLATIVE COMMITTEE
FEBRUARY 17, 2020, MEETING**

ACTION ITEMS.

- None.

INFORMATIONAL ITEMS.

- 1. Review of 2019-20 NCAA Division I Council-Governance Legislative Proposals.** The NCAA Division I Legislative Committee reviewed the proposals included in the 2020 Division I Council-Governance Official Notice and developed positions and noted comments, concerns and procedural issues [Attachment]. Any additional information related to the proposals will be reviewed during the April meeting and positions will be updated, as necessary.
- 2. Review of NCAA Division I Interpretations Committee Report/Official Interpretations and Appeal.** The Legislative Committee approved one official interpretation (References: 10/16/2020, Item No. 1) recently issued by the Interpretations Committee, as recommended. The Legislative Committee took no action on one official interpretation (References: 10/9/2019, Item No. 1) and will continue to discuss the issue in April. Additionally, the Legislative Committee considered an appeal request of an Interpretation Committee decision regarding the application of NCAA Division I Bylaw 13.11.1 (prohibited activities). Based on the review of the appeal, the Legislative Committee issued the following interpretation:

Strength and Conditioning Coach's Involvement with a Sports Performance Business. (I) The Legislative Committee determined that if a strength and conditioning coach owns or operates a sports performance business where prospective student-athletes participate in any physical activities (e.g., strength, flexibility, conditioning, yoga), the business must be operated as a local sports club as it relates to the prospective student-athletes. The local sports club component must be established and ongoing for competitive purposes (participates in competitions) and must not be formed only to provide instruction to prospective student-athletes. All prospective student-athletes must be legal residents of the area (within a 50-mile radius of the institution).

If a strength and conditioning coach is employed by a sports performance business where prospective student-athletes participate in any physical activities, the strength and conditioning coach may provide individual instruction to prospective student-athletes, provided the prospective student-athletes are legal residents of the area (within a 50-mile radius of the institution).

[References: Bylaws 13.11.1 (prohibited activities), 13.11.2.4 (local sports clubs) and an official interpretation (9/16/93, Item No. 2)]

- 3. Review of NCAA Division I Committee on Student-Athlete Reinstatement Report.** The Legislative Committee received a report of the November 19-20, 2019, meeting of the Committee on Student-Athlete Reinstatement. At the request of the Committee on Student-Athlete Reinstatement, the Legislative Committee agreed to refer the concept of permitting an institution to provide athletically related financial aid to a nonqualifier in his or her initial year of full-time enrollment to the NCAA Division I Committee on Academics and the NCAA Division I Student-Athlete Experience Committee. Current legislation prohibits an institution from providing athletically related financial aid to final academic nonqualifiers. The Committee on Student-Athlete Reinstatement reviews violations of the prohibition on providing aid to a nonqualifier. In reviewing such violations, the NCAA student-athlete reinstatement staff consults with the NCAA initial-eligibility waiver staff to determine whether an initial-eligibility waiver would have allowed the student-athlete to receive athletics aid. Because a primary purpose of the Association is to provide access to education, the vast majority of initial-eligibility waivers provide, at a minimum, the opportunity for a student-athlete to receive athletics aid. As a result, violations virtually always result in relief from repayment of the impermissible athletics aid. Therefore, the Committee on Student-Athlete Reinstatement believes that providing an institution the discretion to permit a nonqualifier to receive athletics aid is in the best interests of student-athletes. Although the Committee on Student-Athlete Reinstatement believes legislative change is appropriate, it recognizes that the Committee on Academics and the Student-Athlete Experience Committee are the appropriate governance entities to review the issue and, potentially, make a recommendation.
- 4. Review of NCAA Division I Legislative Committee Modernization of the Rules Subcommittee Report.** The Legislative Committee received a report of the January 17, 2020, teleconference of the Modernization of the Rules Subcommittee. At the request of the subcommittee, the Legislative Committee agreed to request that the Student-Athlete Experience Committee specifically review financial aid legislation related to meals and training table meals as part of a review of athletically related financial aid or separately. The Modernization of the Rules Subcommittee reviewed NCAA Division I Proposal No. 2018-75, which was referred to the Legislative Committee by the NCAA Division I Council. Based on feedback from the original sponsors and concern from the membership related to unintended consequences, the Legislative Committee recommends no additional action on Proposal No. 2018-75. However, the current meals legislation may be insufficient to account for current practical realities of how meals are provided by member institutions. Additionally, it appears that there are misunderstandings and inconsistent applications of the legislation and a general desire from the membership for more flexibility.
- 5. Review of Council-Governance Legislative Process.** The Legislative Committee discussed the implementation of the new Council-governance legislative process and noted possible enhancements for the 2020-21 legislative cycle. The Legislative Committee will continue review the process and discuss possible changes during future meetings.

- 6. Review of the Interpretive Process in Infraction Cases.** The Legislative Committee received an update from the NCAA Division I Interpretive Process Review Working Group. It was noted that the working group is considering a concept that would empower the NCAA Division I Committee on Infractions to determine how NCAA legislation applies to new, material facts developed at the hearing. The Committee on Infractions decisions would remain subject to appeal by the NCAA Division I Infractions Appeals Committee, which would retain authority to set aside findings that it deems are not NCAA violations in accordance with NCAA Division I Bylaw 19.10.1.2. The working group further discussed whether the Committee on Infractions or Infractions Appeals Committee decisions that might be considered interpretative determinations, should be limited in precedential value and ultimately require a review by the Interpretations Committee to clarify the legislative application moving forward.
- 7. Approval of NCAA Division I Legislative Committee November 19, 2019, Teleconference Report.** The Legislative Committee approved the report of its November 19, 2019, teleconference.
