

REPORT OF THE NCAA  
DIVISION I MEN'S BASKETBALL OVERSIGHT COMMITTEE  
APRIL 25, 2024, MEETING

**ACTION ITEMS.**

- **Legislative action.**
  - **Athletics Personnel and Recruiting -- Limitations on The Number of Off-Campus Recruiters -- Men's Basketball.** The NCAA Division I Council amend NCAA Division I Proposal No. 2024-16 introduced by the NCAA Division I Women's Basketball Oversight Committee to specify that for men's basketball, all six countable coaches may contact and evaluate prospective student-athletes off-campus; however, only four countable coaches may be recruiting off campus at one time.

Effective date. Immediate.

Rationale. The adoption of Proposal No. 2022-30 increased the number of countable coaches in men's basketball from four to six but prohibited the two additional coaches from recruiting off campus. Experience contacting and evaluating prospective student-athletes off campus is imperative to the development of coaches and the overall coaching pipeline. Allowing only four coaches to recruit off campus at one time maintains support to basketball student-athletes and ensures staff members are available to assist and develop current student-athletes when all other countable coaches are recruiting off campus.

Estimated budget impact. None. This proposal does not increase countable coach limits or the number of recruiting person days.

Student-athlete impact. None.

**INFORMATIONAL ITEMS.**

1. **Legislative action.**
  - a. **NCAA Division I Proposal No. 2024-11: Recruiting -- Official (Paid) Visit -- Number of Official Visits - Institutional Limitations -- Men's Basketball.** The Men's Basketball Oversight Committee amended Proposal No. 2024-11 to retain the head coach change exception that permits an institution to conduct up to 25 percent more additional official visits after a new head coach is hired, provided the previous head coach used 75 percent or more of the official visits permitted for that academic year. This exception would apply to the proposed increase to permit, in men's basketball, that an institution may provide 35 official visits in a rolling two-year period (up to 41 for national service academies); to specify that a national service academy shall not exceed 35 official visits prior to the initial National Letter of Intent signing date of the first year in each rolling two-year period.

Effective date. Immediate. Applicable to the current two-year rolling period of August 1, 2023 to August 1, 2025.

Rationale. Currently, the maximum number of permissible official visits an institution is permitted to provide is 28 over a rolling two-year period from August 1 through July 31. A blanket waiver was in effect to provide 35 official visits over the period of August 1, 2021, through July 31, 2023, to address specific legislative changes (e.g., one-time transfer exception, NCAA Transfer Portal). The blanket waiver expired, and institutions have reverted to the legislation of 28 visits over the rolling two-year period. Recent legislative changes to the one-time transfer exception, notification of transfer windows and unlimited prospective student-athlete official visits require an increase in the annual number of official visits an institution may provide. With the oversight committee's modification to the proposal, the exception that provides an institution with additional visits if there is a head coaching change would remain in place.

Estimated budget impact. Potential increased costs for institutions to provide up to the maximum number of official visits.

Student-athlete impact. Potential increased time demands associated with student host duties if more official visits are conducted.

2. **Discuss first permissible contest date for men's basketball.** The committee engaged in an initial discussion related to alternatives to the current first permissible contest date legislation. Basketball's first permissible contest date is scheduled independently of the championship creating a lack of a standard length of season. Alternative options presented to the committee would create a standard length to the basketball season. The committee noted support for standard length of the playing season and a start date that would maximize flexibility in scheduling. Discussion on the topic will continue during the joint Men's and Women's Basketball Oversight Committees' videoconference on May 3.
3. **Outside competition update.** The committee received an update on action taken by the NCAA Division I Men's Basketball Oversight Committee Administrative Subcommittee and the NCAA Division I Council Coordination Committee regarding a working group, timeline and areas of review for conducting a review of the outside competition legislation in men's basketball. The committee will continue to receive updates on the working group's work during future meetings.
4. **NCAA Division I Men's Basketball Student-Athlete Engagement Group (SAEG) update.** The oversight committee received an update related to the Men's Basketball SAEG leadership team's trip to the 2024 NCAA Men's Final Four in Phoenix, Arizona. The student-athletes assisted with operational duties in conjunction with the semifinals and national championship games, Invesco QQQ Final Four Talks, the championship dinner, and a student-athlete family brunch. The group also spent time networking at the National Association of Basketball Coaches Convention and met with NCAA President Charlie Baker to discuss the current state of college athletics.
5. **NABC Convention update.** The committee received an update on the NABC Convention that occurred in Phoenix, Arizona in conjunction with the 2024 Men's Final Four.

6. **NCAA Division I Men's Basketball Competition Committee and playing rules update.** The oversight committee received an update on the latest Men's Basketball Competition Committee meeting that occurred in conjunction with the Men's Final Four. Additionally, the oversight committee was provided a playing rules update. The group was informed that last year's change to the legal guarding position has been supported as a positive change; however, the widening of the lane and the experiment with the standard media timeout did not receive such support. Moving forward, the NCAA Men's Basketball Rules Committee will explore adding a narrowly tailored rule to permit officials to review an out-of-bounds play that was not called on the floor on a last second shot where the clock reads 0.0.
7. **NCAA Division I Men's Basketball 2023-24 officiating update.** The committee received an officiating update that provided an overview of the season and NCAA tournament. Officiating clinics will continue in person this year and the selection of up-and-coming officials are in the process of being selected to officiate the 2024 NCAA College Basketball Academy.
8. **Recruiting calendar pilot program.** The committee received an update on the recent change of sport-specific recruiting calendars moving out of NCAA legislation and into oversight committee policy. This pilot program allows the oversight committee to nimbly make recruiting calendar changes, specific to men's basketball.
9. **Identification of discussion topics for upcoming NCAA Division I Men's and Women's Basketball Oversight Committees' joint meeting agenda.** The committee was asked to identify any topics to be discussed during the upcoming May 3, 2024, joint Men's and Women's Basketball Oversight Committees' meeting.
10. **NCAA Division I Men's Basketball Oversight Committee February 29 videoconference report.** The committee reviewed and approved its February 29 videoconference report.
11. **NCAA Division I Men's Basketball Oversight Committee Administrative Subcommittee April 1 videoconference report.** The committee reviewed and approved the Administrative Subcommittee's April 1 videoconference report.
12. **NCAA Division I Men's Basketball Oversight Committee Legislative Subcommittee April 23 videoconference report.** The committee reviewed and discussed proposals that were reviewed by the oversight committee's Legislative Subcommittee (see attached). The committee approved the April 23 Men's Basketball Oversight Committee Legislative Subcommittee videoconference report.
