

# REPORT OF THE NCAA DIVISION III CHAMPIONSHIPS COMMITTEE FEBRUARY 4-5, 2020, MEETING

#### ACTION ITEMS.

- 1. Legislative items.
  - a. Administrative Regulation: 31.3.3.1.1—automatic qualification waiting period—provisional and reclassifying members.
    - (1) <u>Recommendation</u>. Amend Bylaw 31.3.3.1.1. to only permit institutions in year three of the provisional or reclassifying process count toward the automatic qualification waiting period.
    - (2) <u>Effective date</u>. August 1, 2020.
    - Rationale. Upon the passage of two legislative proposals (Nos. 2020-2 and 2020-3), which eliminated the 4<sup>th</sup> year of the membership process, the committee recommended amending Bylaw 31.3.3.1.1 to clarify that only institutions in year three of the provisional or reclassifying process could count toward the automatic qualification waiting period. Proposal 2016-9 originally allowed institutions in years three and four of the membership process to count towards the waiting period for an automatic qualification. With the elimination of the fourth year, Bylaw 31.3.3.1.1 needs clarification as to the scope of its application. Proposals 2020-2 and 2020-3, did not create different standards for the second year of the membership process, rather they only eliminated the fourth year. Thus, institutions in the second year of the membership process may still provide athletics aid to participating student-athletes and are not counted in primary selection criteria for championships. These were both key factors in the membership deciding to approve proposal 2016-9. Consequently, since institutions in the second year of the membership process were not permitted to count for purposes of the automatic qualification waiting period, prior to the passage of the 2020 proposals, then they should not be permitted now. Rather, Bylaw 31.3.3.1.1 should only apply to institutions in their third year of the membership process.
    - (4) Estimated budget impact. None.
    - (5) <u>Student-athlete impact</u>. None.
  - b. Noncontroversial legislation NCAA Bylaw 21.9.6.2 and Figure 21.1 Committee Membership.

\_

(1) <u>Recommendation</u>. That noncontroversial legislation be adopted to amend Figure 21.1 as incorporated by Bylaw 21.9.6.2 to adjust sport committee rosters to coincide with the new regional alignment the championships committee endorsed in Informational Item 11 as outlined below:

Sport	Current # Members	Proposed # Members	Difference
Football	8	6	-2
Men's Soccer	8	10	2
Women's Soccer	8	10	2
Women's Volleyball	8	10	2
Men's Basketball	8	10	2
Women's Basketball	8	10	2
Baseball	8	10	2
Men's Golf	6	7	1
Softball	8	10	2
Total	70	83	13

<sup>\*</sup>If a sport is not included, then there is no increase to the number of regions proposed.

- (2) Effective date. September 1, 2021.
- (3) <u>Rationale</u>. The championships committee supported the revised regional alignment model noting the continued support of the Division III Commissioners Association as well as input from sport committees. The proposal creates a scale for regional alignment based on sport sponsorship (e.g., sports with sponsorship from 40-149 would have two regions; 150-374, 5-8 regions; 375+, 9-10 regions) and other key principles, including: 1) maintaining conference members in the same regions; 2) importance of geographic proximity in regional placement; 3) balancing the number of institutions across all regions (optimally, close to 40 per region); and 4) competitive balance across the regions.
- (4) <u>Estimated budget impact</u>. Up to \$75,600. (Note: the budget allocation for the increase in committee composition was approved by the Division III Management Council during its April 2019 in-person meeting.)
- (5) <u>Estimated student-athlete impact</u>. The new sport committee compositions will increase representation for student-athletes across the regions.

#### 2. Nonlegislative items.

### Bracket expansion in field hockey and men's lacrosse.

- a. <u>Recommendation</u>. That the Division III Strategic Planning and Finance Committee and the Division III Management Council consider expanding the field hockey bracket by two teams (from 24 to 26) and the men's lacrosse bracket by two teams (from 36 to 38).
- b. Effective date. August 1, 2020.
- c. <u>Rationale</u>. Based on 2019-20 sport sponsorship data, the brackets in field hockey and men's lacrosse merit consideration for expansion in 2020-21 to align with the division's prescribed access ratio. While the Championships Committee acknowledges that this comes during the middle of the current budget cycle, it is customary to make the Strategic Planning and Finance Committee aware of potential bracket increases to determine whether they warrant immediate funding or to be considered among allocations for the next cycle.
- d. <u>Estimated budget impact</u>. \$36,820 for field hockey and \$75,561 for men's lacrosse. (See Attachment A.)
- e. <u>Student-athlete impact</u>. Bracket expansion increases the opportunity for student-athletes to experience the benefits and rewards of postseason competition.

# **INFORMATIONAL ITEMS.**

- 1. Opening remarks and review of schedule and agenda. Division III Championships Committee Chair Kiki Jacobs welcomed new members Heather Benning, Chuck Mitrano, Michelle Morgan and John Neese and reviewed the meeting schedule and key discussion items.
- 2. Committee roster and liaison assignments. The committee reviewed the committee roster and available sport liaison assignments as a result of committee turnover. As a liaison to a sport committee, Championships Committee members are expected to remain apprised of sport-specific issues and concerns. Members agreed on several changes to the sport liaison assignments.
- **3. Recent committee reports.** The committee reviewed and approved its December 17 teleconference report as presented.
- **4. Governance update.** NCAA governance staff reviewed the following key items with the committee: 1) Next steps resulting from discussions and educational sessions at the recent NCAA Convention regarding student-athlete name, image and likeness; 2) Upcoming joint basketball championships (men this April in Atlanta and women in Dallas in 2023); 3) Association-wide discussions regarding officiating; 4) Impact of the recent Arrington

\_\_\_\_

settlement on Division III member institutions regarding student-athlete health and safety (specifically concussion); 5) Athletic training issues (specifically the "care gap" that occurs when visiting institutions do not travel with an athletic trainer); 6) SSI health and safety survey; 7) Transfer portal update; 8) Potential next steps resulting from the International Ice Hockey Pilot Program; 9) Update on Game Day the DIII Way; and 10) LGBTQ recognition awards.

- **5.** NCAA Division III Management Council/Presidents Council updates. Committee members who also serve on the Management Council provided additional updates from the January meeting.
- **6.** NCAA Division III Student-Athlete Advisory Committee update. The SAAC liaison provided an update on behalf of the Division III SAAC from the NCAA Convention.

## 7. Playing Rules Oversight Panel.

- a. Recent reports. An NCAA playing rules staff member updated the committee on the panel's most recent reports. Included in the update was a discussion about Bylaw 21.3.1.3, which requires the playing rules to be the same for all three divisions except for divisionspecific playing rules developed to address significant financial impact and approved by the Playing Rules Oversight Panel (PROP) and each division. The staff noted that various coaches associations had expressed interest in altering this bylaw to permit divisionspecific playing rules to allow for more flexibility by division and by sport (e.g., liberalize substitution rules in some Division III sports to allow for more student-athlete participation, implement more strict substitution rules in some Division I sports to be more consistent with professional league substitution rules). The staff noted that at its January 2020 meeting, PROP reaffirmed its support for the current bylaw primarily for three reasons: 1) preventing officials from having to learn more than one set of rules; b) preserving opportunities for competition between divisions, and c) avoiding potential confusion for fans. PROP also encouraged the staff to consider the concept of determining if certain playing rules might be considered "administrative in nature" (e.g., length of halftime) and, therefore, permissible by division when appropriate as an alternative to changing the current bylaw.
- **b.** Championships Committee representative. The committee appointed Robin Baker as its representative on the panel.

## 8. Academic and membership affairs update and action.

- **a.** NCAA Convention legislative update. Staff updated the committee on legislation adopted at the 2020 NCAA Convention.
- **b.** Proposals 2020-2 and 2020-3. Among proposals adopted were two (2020-2 and 2020-3) that reduce the automatic qualification waiting period for provisional and reclassifying institutions. Anticipating that these proposals would be adopted, the Championships

\_\_\_\_

Committee during a November 2019 teleconference agreed to recommend amending the legislation so that only institutions in year three of the provisional or reclassifying process count toward the AQ waiting period. The committee affirmed this position (See Action Item 1) and agreed to count schools in year three toward primary criteria in the championship ranking and selection process.

- c. SCAC men's and women's golf AQ waiting period. Given the adoption of proposals 2020-2 and 2020-3, the Southern Collegiate Athletic Conference cited mitigating circumstances regarding one of its member institutions that it believes merit requesting a waiver to regain its AQ status in men's and women's golf. After discussion, however, the Championships Committee voted to deny the request, noting that the newly adopted proposals (and the proposed amendment in Action Item 1) do not become effective until August 1. As such, the committee noted that approving the waiver request would essentially be applying yet-to-be-effective legislation retroactively, which the committee does not support.
- d. USA South exception for AQ requirements. The committee considered a request from the USA South conference to waive the two-year waiting period once the 19-member conference splits into two conferences. The committee denied the request that the new conference have access to the USA South AQ during the two-year waiting period as affiliate members noting that nothing extraordinary exists to grant an exception to the legislation for a newly formed multi-sport conference. The committee based its decision on upholding the integrity of legislation requiring new conferences to demonstrate a commitment to competition as an entity during the two-year waiting period to earn access to championships through AQ (i.e., Pool A).
- **e.** Reconsideration of AQ waiver decisions. Given recent requests to reconsider waiver decisions, the committee voted to add language in its policies and procedures manual that specifies a 30-day window during which a decision may be reconsidered only if new information is presented that was not reasonably available at the time of the original decision.
- f. Guideline for single-sport conference transitioning to multisport conference. The committee revisited an issue broached during its September 2019 Committee meeting regarding whether to amend legislation pertaining to how a single-sport conference transitions to a multisport conference or to address the matter through a waiver guideline. After discussion, the committee opted for a waiver guideline stating that a single-sport conference may transition into a multisport conference and maintain its automatic qualification so long as it satisfies all conditions of a multisport conference, and so long as each member of the single-sport conference joins the multisport conference to maintain the automatic qualification.
- 9. Championships and alliances updates.

\_\_\_\_\_

- **a. Host site selection.** NCAA staff provided an update of the timeline and process for selecting hosts for championships from the fall of 2022 through the spring of 2026.
- **b.** Championship access ratios by sport. The committee reviewed a comparison of the number of championship participants to the total number of student-athletes based on 2018-19 participation rates data and championship opportunities. The summary showed that 8.7 percent of Division III male student-athletes and 11.4 percent of Division III female student-athletes have access to championships.
- **c. Fine structure.** The committee reviewed the fine structure in Division III (e.g., fines assessed when institutions miss form-submission deadlines or do not attend required administrative meetings). When originally adopted, the fine structure applied to all three divisions, but since that time, Divisions I and II have adjusted their structures. After reviewing the information, the committee agreed to adjust its structure to double the fines for repeat offenders per violation (along with a letter of reprimand to the appropriate supervisor). The committee also agreed to add the game tape exchange as a violation category.
- **10. State of the sport teleconferences with sport committee chairs.** Staff updated the committee on the calls that have been conducted to date and highlighted some of the findings/concerns that have emerged.
- 11. Sport region realignment proposal. The committee supported recommending that the Division III Management Council approve the proposed region alignment model, noting the input incorporated from the membership, primarily the Division III Commissioners Association and sport committees, throughout the model's development. (See Action Item 1-b and Attachment B)

The proposed model is a refined version based on 18 months of deliberation within the governance structure and comprehensive membership input. The last regional alignment changes were made in 2007-08 and several sports have experienced exponential growth since that time. The new model will provide more efficiency in the selection process with fewer teams per region, allowing regional advisory committees and national committee members to more thoroughly evaluate teams in the region. A better balance of numbers across the regions also allows an opportunity to rank a more consistent number of teams per region (the Championships Committee will determine the number of ranked teams per sport during a future teleconference).

The Championships Committee will formally review the alignment every five years following the model's key principles (numerical balance, geographic placement, conference affiliation and competitive consideration), though the committee could conduct an immediate review in instances when conference realignment significantly impacts the number of institutions per region (e.g., if the realignment causes a region to expand above the maximum across all of the regions or contract below its the minimum). If the committee determines during any review

\_\_\_\_

that changes are necessary, those would become effective two years afterward. The committee reinforced that any necessary changes suggested by sport committees in the intermediate timeframes would need the review and support of the Championships Committee.

#### 12. Championships budget.

- **a. Fall budget recap.** NCAA staff reviewed game operations, team transportation and per diem expense for the 2019 fall championships and noted that several charges are still outstanding. The committee will review final budget numbers from the 2019 fall championships during an upcoming teleconference.
- b. Budget priorities and recommendations for Strategic Planning and Finance Committee. The committee prioritized bracket growth in field hockey and men's lacrosse for the Division III Strategic Planning and Finance Committee (SPFC) to consider for the upcoming budget year (2020-21). (See Action Item 2 for committee recommendation.)
- **c. Management of team ground transportation.** Staff updated the committee on the use of GoGround as the NCAA's ground transportation provider and the selection of a consultant to review current safety policies and procedures.
- **13. Roster management with new bench size policies.** The committee voted to clarify that institutions can adjust their rosters from round to round (game to game in baseball/softball) rather than only from site to site as was previously implied.
  - Bench size adjustments in men's and women's volleyball. When the Division III Championships Committee originally requested feedback from sport committees regarding desired adjustments to the bench size for their respective sport, the Women's Volleyball Committee requested no increase in the current bench size (25) based on the belief that the committee could permit coaches to submit a different roster (squad size of 17) each day of championship competition, rather than one roster per round of competition. Given the clarification noted above, the committee asked to increase the bench size by one to allow for an additional student-athlete. The Championships Committee approved the request and also agreed to increase the bench size in men's volleyball by one as well.
- **14. In-region competition requirement waiver requests:** The committee approved the following in-region competition waiver requests for the 2020-21 academic year, unless otherwise specified:
  - **a.** University of Maine at Presque Isle men's soccer, women's soccer, women's volleyball, men's basketball, women's basketball, baseball and softball.
  - **b.** Mills College women's rowing, women's soccer, women's tennis and women's volleyball. (Note: While the committee was sympathetic to the institution's circumstances in women's rowing, members encouraged the school to do its due diligence in the future to meet the scheduling requirements in the other sports.)

Page No. 8

- c. Linfield College women's basketball. (Note: While the committee granted the waiver for the 2019-20 academic year, members believe the institution should have been more diligent in monitoring to ensure that the requirements were met. As such, the committee agreed to inform the institution that it must meet the in-region competition requirement during the 2020-21 academic year and beyond, as future requests of this same nature would likely be denied.)
- **d.** Allegheny Mountain Collegiate Conference. The committee approved a request from the AMCC to allow competition against a conference member that has applied for Division II membership to count toward Division III in-region requirements for the 2020-21 academic year, pending the school's acceptance into the Division II membership process. The committee cited precedent for approving such requests to not unduly burden other conference members in scheduling or impacting ranking and selections data (i.e., primary criteria). The committee conditioned the waiver on the institution's commitment to compliance with NCAA Division III Bylaws during the course of the year.

#### 15. 2019 fall championships reports.

- **a. General reports and enhancements.** The committee reviewed reports from the 2019 fall championships.
- **b. Broadcast metrics.** The committee reviewed the fall championships live video streaming report.
- **16. Sport committee appointments.** The committee approved that Patrick Summers, New England Women's and Men's Athletic Conference commissioner, serve on the Division III Men's Tennis committee through May 31.

### 17. Future meetings dates and sites.

- **a.** June 22-23, 2020 (Indianapolis).
- **b.** September 13-15, 2020, with sport committee chairs (Indianapolis).
- c. February 2-3, 2021 (Indianapolis).

Committee Chair: Kiki Jacobs, Roger Williams University

Staff Liaisons: Liz Turner Suscha, Championships and Alliances

Laura Peterson-Mlynski, Championships and Alliances Julie Sargent, Academic and Membership Affairs

> Division III Championships Committee February 4-5, 2020, Meeting

#### **Attendees:**

Robin Baker, University of Wisconsin-Eau Claire.

Heather Benning, Midwest Conference.

Jason Fein, Bates College.

Kiki Jacobs, Roger Williams University.

Braly Keller, Nebraska Wesleyan University (via teleconference).

Chuck Mitrano, Empire 8.

Michelle Morgan, John Carroll University.

John Neese, Hardin-Simmons University.

Penny Siqueiros, Wesleyan College (Georgia) (via teleconference).

#### **Absentees:**

None.

## **Guests in Attendance:**

Gary Brown, NCAA Contractor.

#### **NCAA Staff Support in Attendance:**

Laura Peterson-Mlynski, Championships and Alliances.

Julie Sargent, Academic and Membership Affairs.

Liz Turner Suscha, Championships and Alliances.

### **Other NCAA Staff Members in Attendance:**

Mark Aiken, Dan Calandro, Joni Comstock, Dan Dutcher, Greg Johnson, Laura Klee, David Lafiosca, Louise McCleary, Alex Mortillaro, Jeff Myers, Micki Spears.
