

# Recent NCAA Board of Governors Actions on Name, Image and Likeness

# Improve Benefits for Student-Athletes

---

- Share how we support students.
- Continue to modernize rules.
- Make changes in rules or policies governing name, image and likeness as the potential next step.
- Maintain uniformity and fair national competition.
- Created NCAA Board of Governors Federal and State Legislation Working Group to address.

# Legislative Landscape

---

- Federal.
  - One federal bill introduced.
  - Several presidential candidates or members of Congress actively engaged on topic.
- State.
  - CA SB 206 passed into law; Effective 2023.
  - 30 additional states engaged.
    - 11 pre-filed legislation.
    - 19 expected to introduce legislation this cycle.

# Charge

---

- Consider modifications to NCAA rules, policies and practices.
- Be mindful that NIL payments must not be compensation for athletics participation.
- Examine whether any modifications to allow for NIL payments would be achievable and enforceable without undermining the distinction between professional sports and collegiate sports.
- Keep in mind how student-athlete benefits could be tethered to educational expenses or incidental to participation.

The NCAA Board of Governors also requested the working group produce a set of Association-wide principles to provide each division guidance to a consistent approach on legislation.

# Process

---

- Established May 14, 2019.
- Three in-person meetings and four teleconferences.
- Input from variety of stakeholders.
  - In-person testimony.
  - Invitation to submit input via online portal.
  - Conversations on campus.
- Outcome.
  - Six recommendations.
  - Three principles.
  - A regulatory framework.

# Recommendations

---

1. Authorize change in policy and bylaws to permit name, image and likeness benefits consistent with NCAA values and principles as well as with legal precedent.
2. Reject any approach that would make student-athletes employees or use likeness as a substitute for compensation related to athletic participation and performance.
3. Reaffirm the integrity of the student-athlete recruitment process, which is unique to college sports. Changes to NCAA name, image and likeness rules should support this principle and not result in undue influence on a student's choice of college.

# Recommendations - continued

---

4. Extend the timeframe of this working group through April 2020 to continue to gather feedback and work with the membership on the development and adoption of new NCAA legislation.
5. Endorse the regulatory framework described in this report as appropriate guardrails for future conversations and possible NCAA legislation.
6. Instruct NCAA leadership on engagement with state and federal lawmakers.

# Association-Wide Principles

---

1. Payment to a student-athlete for use of his or her name, image or likeness should not be pay for athletic performance or participation; nor should the payment serve as an inducement to select a particular school.
2. Regulation of a student-athlete's name, image or likeness use should be transparent, narrowly tailored and enforceable, and it should facilitate the principle of fair competition among schools in a division, including the integrity of the recruiting process.
3. A student-athlete should be able to use his or her name, image or likeness similar to college students who are not student-athletes, unless there is a compelling reason to differentiate.

# Regulatory Framework

---

**Benefits related to NIL are on a continuum.**

***At one end of the spectrum of activity:***

- Student-athletes should be permitted to use their name, image or likeness to promote their own work product or business, particularly when the work product or business is not related to athletics.  
Examples include:
  - Student-athlete uses NIL to promote his or her legitimate commercial activity (e.g., writing and publishing a book or charging a fee for a lesson).

# Regulatory Framework

---

## *At the other end of the spectrum of activity:*

- The working group believes that the commercial value of a student-athlete's name, image or likeness may be derived largely through that student-athlete's association with his or her school and/or participation in NCAA athletics.
  - In many cases, allowing student-athletes to be paid for the right to use their name, image or likeness in these circumstances could be tantamount to allowing compensation for athletic participation.
  - Without mitigation, these activities would be inconsistent with the collegiate model.

# Board of Governors Actions

---

The Board of Governors directs each of the three divisions to immediately begin considering modification and modernization of relevant NCAA bylaws and rules in harmony with the following principles and guidelines:

- Assure student-athletes are treated similarly to nonathlete students unless a compelling reason exists to differentiate.
- Maintain the priorities of education and the collegiate experience to provide opportunities for student-athlete success.
- Ensure rules are transparent, focused and enforceable and facilitate fair and balanced competition.

# Board of Governors Actions - continued

---

- Make clear the distinction between collegiate and professional opportunities.
- Make clear that compensation for athletics performance or participation is impermissible.
- Reaffirm that student-athletes are students first and not employees of the university.
- Enhance principles of diversity, inclusion and gender equity.
- Protect the recruiting environment and prohibit inducements to select, remain at, or transfer to a specific institution.

# Next Steps

---
