Championship Per Diem

• The Presidents and Management Councils ratified a one-time spend from the funds above the mandated reserve of $800,000 to implement the championship per diem increase planned for 2024-25 a year early.

• The initial recommendation came from the Championship Committee. The committee’s rationale was based several factors:
  
  o Membership surveys indicated a desire to increase per diem.
  
  o The increase would not impact future enhancements and is consistent with previously approved enhancements.
  
  o It supports the governance structure’s desire to reduce the amount above the mandated reserves.
Championships Updates

• Based on membership feedback, the committee has identified the following as possible enhancements to Division III championships for FY25 and FY26.
  o Increasing per diems (increased to $125/$55 for this year).
  o Increasing championship brackets (including football).
  o Providing additional flights to separate higher regionally ranked teams.

• A survey was sent to gather feedback on possible championship enhancements and principles.

• The committee will use membership feedback to inform its recommendations that it anticipates finalizing during its February 2024 meeting.
Championship Updates

• The committee approved a process and feedback instrument for sport committees to use to gather membership feedback before recommending a change to the championship date formula.

• The committee continues to review the use of a selection criteria database (e.g., Pairwise) to help with the selection of teams that are not automatic qualifiers.
  
  o The committee has received positive feedback from championship managers and sport committees.
  
  o The committee will continue to engage membership stakeholders.
