

COLLEGE CHEERLEADING/DANCE TEAM

CATASTROPHIC INSURANCE COVERAGE

INFORMATION AS OF JANUARY 2021

NCAA collegiate cheerleading squads and dance teams often participate in activities that are separate from the institution's sports program, in addition to their sports program activities. Catastrophic Medical coverage provided through the NCAA and Varsity Spirit LLC including UCA, NCA, USA, UDA, and NDA (Varsity), applies to many, but not necessarily all, of these activities. Varsity developed a program in 2008 that enables institutions to purchase Catastrophic Medical coverage to fill in certain “gaps” in coverage that apply today.

Catastrophic Medical coverage is important because it provides high limits of coverage for medical expenses associated with cheerleading injuries. In the event of a truly catastrophic injury (such as paralysis or severe head trauma), medical bills can add up to millions of dollars. Having adequate insurance for these medical bills has an immeasurable impact on the quality of life for both the injured person and his or her family.

This document has been prepared jointly by the NCAA and Varsity and the Catastrophic Medical insurer, Mutual of Omaha. The purpose is to provide institutions with a summary to clarify the Catastrophic Medical coverage that automatically applies or is available for purchase to cover the spectrum of cheerleading activities that may take place at your institution. It is part of a collaborative effort between the NCAA and Varsity to provide risk management tools and information to member institutions and their cheerleading squads.

WHO IS COVERED

Individuals who are officially recognized by the member institution as cheerleaders including dance team members and mascots.

WHEN DOES COVERAGE APPLY

Supervision must be by someone OTHER THAN a member of the cheerleading squad, student-coach, or full-time undergraduate student. In order for coverage to apply, supervision must be conducted by an individual who has current safety certification by a nationally recognized formal credentialing program for safety certification (e.g. USA Cheer Safety & Risk Management).

- ◆ Graduate students can meet the safety certification requirement if he/she is officially designated by the school as the official coach or advisor; and the school has given the graduate student the authority to authorize, organize and directly supervise.
- ◆ Practice sessions held solely by dance team members or mascots are not subject to the safety certification requirement.

Coverage applies during travel to and from the activities listed above (if such travel is paid for or subject to reimbursement by the member institution) and temporary stays at the location of a covered activity as long as the activity during which the individual is injured is authorized, organized, or directly supervised by the member institution.

Coverage does not apply to any activities that are not directly associated with an intercollegiate sport team activity such as fundraisers, alumni events, camps, clinics, practice for camps and clinics, or national competitions.

EXPANDED COVERAGE OPTION AVAILABLE THROUGH VARSITY

As a result of the collaborative efforts of the NCAA and Varsity, it has become clear that institutions have a need for affordable, Catastrophic Medical insurance to cover activities that fall outside the coverage currently provided by the NCAA and Varsity. On behalf of its constituents in college-level cheerleading, Varsity has worked with Mutual of Omaha to make such coverage available to member institutions that participate in at least one Varsity camp or competition throughout the year. At their option, institutions can elect to purchase this coverage for their cheer and dance teams.

THE FOLLOWING COVERAGE APPLIES ONLY FOR THOSE INSTITUTIONS THAT HAVE PURCHASED COVERAGE FOR THEIR CHEERLEADING/DANCE TEAM SQUADS OR MASCOTS:

- ◆ Deductible: \$25,000

(All events sponsored by Varsity) and **for whom appropriate premium has been paid by the institution**. Please note: "official" team means those teams that cheer or dance for intercollegiate athletic events.

WHEN DOES COVERAGE APPLY

Coverage applies while participating in exhibitions, fundraisers and alumni events and related Covered Travel. **Covered Travel** means team or individual travel, for purposes of representing the Participating School or Sponsoring Organization, that is to or from the location of a Covered Event and is authorized by the Insured Person's Participating School or Sponsoring Organization. Individual Covered Travel is subject to a requirement that the travel be paid for or subject to reimbursement by the Participating School or Sponsoring Organization. Covered Travel to a Covered Event will commence upon embarkation from an authorized departure point and terminate upon arrival at the location of the Covered Event. Covered Travel from a Covered Event will commence upon departing from the location of the Covered Event and terminate upon return to the authorized place from which such Covered Travel to the Covered Event began. Scheduled practices for Varsity sponsored competitions must occur within a period beginning five days before the first day of scheduled class in the fall term and ending on the last day of class in the spring term. Scheduled practices for Varsity sponsored camps must occur within a period beginning five days before the first day of camp and ending on the day of camp.

Important Note regarding Cheerleading Activities: All cheerleading activities must be organized by and directly supervised by an AACCA safety-certified official coach or advisor of the Insured Person's Participating School, other than a member of the cheer unit or other undergraduate student. A graduate student can be considered a coach if he/she:

- ◆ Is officially designated by the school as the official coach or advisor; and
- ◆ The school has given the graduate student the authority to authorize, organize and directly supervise.

The coach or advisor must have a current safety certification by USA Cheer Safety & Risk Management for safety certification, and the activity must be in compliance with USA Cheer Safety & Risk Management credentialing program's safety rules. The safety certification requirement does not apply to activities that are held solely by dance team members or mascots.

COVERAGE CHART

The following coverage applies only for “insured persons,” and the definition of insured person is not the same on each policy (see above summary “Who Does It Cover”). For certain tryouts or practices, an institution may include individuals who are not enrolled at the institution. It is important to note that the NCAA policy requires the individual to be attending the institution or be a prospective student that has graduated from high school and signed an irrevocable commitment to participate. Therefore, high school students trying out for the squad or practicing for the squad would not be covered.
