2025 Division II Membership Survey:
Championships Results

May 2025

NCAA RESEARCH

Methods

- Division II governance collaborated with NCAA Research to gather feedback from Division II presidents and chancellors, athletics directors, athletic trainers, commissioners, conference staff, and other athletics staff about the current state and future of Division II.
- Individuals at all active Division II institutions and those in the membership process (304 institutions) were invited to complete the online survey via a Salesforce email invitation. Those as schools transitioning out of Division II were not invited to complete the survey.
- The survey was designed using Qualtrics survey software and took 30-60 minutes to complete. It opened January 22 and closed February 21. Due to a lower than desired response rate among presidents and chancellors, the survey reopened for that group of individuals and closed March 7, 2025.

Overall Responses

- N = 2,234
- Individuals from 302 (99%) institutions and conference staff representing 23 (100%) conferences responded.

Championships

Key Findings

- Bracket changes to minimize first-round conference opponents and the expansion of the bracket/field size were rated the top priorities for future championships resource allocation.
- Sunday evening (6 to 9 pm ET) was indicated as the preferred day and time for a selection show.
- The quality of the championships venue and the ability to hold multiple championships at one site were rated as the most important components of championships festivals.
- The majority of respondents believe the top seed in each region should continue to earn the right to host preliminary rounds.

Sports to include in Championships Festivals

- The majority of athletics staff feel the current sports should remain at their respective festivals.
  - Except for coaches who have not attended a festival, less than half of respondents believe football should be included in the fall championship festival.
  - 55% of ADs who have attended a festival think men's and women's basketball should be included in the winter championships festival.
  - A little more than half of ADs responded that women's rowing should be included in the spring championship festival. Of ADs who have attended a festival, less than half indicate baseball should be included. Additionally, more than three-quarters of respondents believe outdoor track and field should be included.

Note: Current fall festival sports: cross country, field hockey, soccer and women's volleyball. Current spring festival sports: golf, women's lacrosse, and tennis. Current winter festival sports: indoor track and field, swimming and diving, and men's wrestling.
