

NCAA Graduate Student Research Grant Recommendation Form

Please complete the form below to assist the NCAA Research Committee in determining the recipients of the Graduate Student Research Grant. You will be asked four questions specific to the student's research design and their eligibility for this grant. Applicants have been encouraged to share a copy of their grant proposal with you in order to assist you in completing this recommendation form.

For more information about the NCAA Graduate Student Research Grant program, the Call for Proposals can be found [here](#).

Your name:

Your title:

Your email address:

Your phone number:

Name of applicant for the NCAA Graduate Student Research Grant:

Your relationship to the applicant (e.g., professor, dissertation chair, research site contact, etc.):

Affirmation of eligibility: The NCAA graduate student research grants are available for graduate students only and are intended to support the student while conducting research to be used for a doctoral dissertation, master's thesis or external publication in a scholarly journal. To be eligible for funding, students must be enrolled in graduate school at an NCAA member institution and the proposed research must be in progress during the award period. Completed studies are not eligible to receive funding.

Can you affirm that the applicant meets the eligibility criteria? ☐ Yes ☐ No

Please explain why you believe this applicant is a strong candidate for the NCAA Graduate Student Research Grant (limited to 1,200 characters).

Please discuss the support (e.g., mentoring, research method support, assistance in recruiting sample, etc.) you intend to provide the applicant as they complete the proposed study (limited to 1,200 characters).

If serving as the applicant's faculty advisor, chair or thesis committee member, please discuss (limited to 1,800 characters) the applicant's ability to successfully answer the research questions posed using the methods selected and sample identified (e.g., by noting relevant coursework or previous research employing the described methods, discussing their access to the participants identified, etc.). If not supporting the applicant in this capacity, please indicate "Not applicable" in the text field.
