Thank you for your participation in this very important study.

The NCAA Research Staff
Dear Student:

This survey of college students is part of the 2012 NCAA National Study on Collegiate Wagering and Social Environments. The first part of this study seeks to assess opinions toward gambling and sports wagering among current student-athletes. The second part asks questions about the social environments of student-athletes. Your opinions and experiences will be used to develop programming and educational initiatives that will assist all of us associated with college sports.

This information is being collected anonymously. We won't ask you to identify yourself or your school. That means nobody, including the NCAA or the researchers, will know your identity or be able to match your responses to your team or your school. The study protocols were designed specifically to help you maintain complete anonymity. Results that are reported will be in terms of sport trends or national averages; an individual's responses will never be reported in isolation.

For this study to help future student-athletes, it is important that the responses you give be thoughtful and honest. You may be asked in several places to respond to questions that may not be completely relevant to you. Rather than skip over these sections, we ask that you respond to these items so that time to complete the survey is not related to the particular answers you give. Your participation in this study is completely voluntary, so you may choose not to answer specific questions or to discontinue your participation at any time without penalty. Your voluntary completion of this study constitutes your informed consent to participate.

If you are under 18 years of age, you are excused from further participation in this research study. Please return the questionnaire to the person administering the study.

If you have questions regarding the study or survey instrument, please contact Karen Cooper, study coordinator, at 317/917-6307 or kcooper@ncaa.org. For questions regarding the study procedures, please contact Michael Miranda, Research Review Board coordinator, at 317/917-6304 or mmiranda@ncaa.org.

Your answers will be read automatically by a machine called an optical mark reader. Please follow the instructions carefully:
