

# Welcome to the Nation's Premier Specialty Laboratory

## Who We Are

Access® is the nation's premier specialty diagnostic laboratory, specializing in COVID-19 Real Time RT-PCR testing. Since 2003, Access Medical Labs has been on the forefront of diagnostic lab testing and research. SalivaDirect is FDA Authorized (EUA) and is performed in our CAP accredited, CLIA certified ultra-automated facility in Jupiter, FL .

## Our Solutions

Access® has partnered with Yale University to perform the Saliva Direct PCR test. This enables us to provide COVID-19 testing that is far more accessible nationwide, convenient to collect and more affordable for mass testing.

## Our Simplified 2 Step Process

We understand the importance of getting your athletes safely on the field. Our simplified 2 step process allows athletes to be tested with accuracy, speed and mobility.

### Collect

We supply you with everything needed to collect your athletes Saliva Direct sample. Only 1ml of saliva is needed.

### Send

Simply place all of your samples for the day into our transport box and provide the package to UPS.

# COVID -19 Real Time RT-PCR, Saliva

## Our COVID-19 Real Time RT-PCR, Saliva Test

- Tube: Sterile Tube
- Method: Real Time RT-PCR
- Temperature: Room Temp
- Clinical Specificity: 100%
- T/A: Results within 24hrs
- Clinical Sensitivity: 94%
- NCAA Member Price: \$49 Per Test

## About this Test SALIVADIRECT™

SalivaDirect™ was developed by the Yale School of Medicine to efficiently test for SARS-CoV-2. This requires a high complexity CLIA certified laboratory, such as Access Medical Laboratories to perform the testing. While the difficult RNA-extraction process has been removed, this test is still considered complex, as it requires PCR instrumentation. SalivaDirect also protects health-care workers from potential exposure to sick patients, and works around worldwide swab shortages.

## Results in less than 24hrs!
